Congress Clears Way To Act On Increase In Security Benefits

WASHINGTON (AP) — Congress is clearing the track for early consideration of President Johnson's proposals for Social Security benefit increases.

But his request for a 6 per cent Vietnam war income tax surcharge has been switched to a siding, to sit perhaps until April — or, as some members frankly hoped, indefinitely.

The House Ways and Means Committee is expected to announce next week that hearings will begin in early February on the proposed 20 per cent average increase in Social Security benefits.

Warmly Received

Committees and the House meanwhile will be acting on an increase in the \$330-billion debt ceiling, against which the Treasury has been scraping, and on a special appropriation bill, mostly for Vietnam expenses, totaling probably more than \$10 billion.

Johnson's announcement last

year that he would propose Social Security benefit increases got a warm bipartisan reception. But the size of the increase he suggested Tuesday night in his State of the Union message produced some head shaking.

The President proposed increasing minimum payments from \$44 to \$70 a month, an increase of at least 15 per cent for all 23 million persons receiving payments, and liberalization of the rule on the amount a retired person may earn without reducing his pension.

He also proposed extending medicare, now confined to those 65 or older, to all recipients of Social Security disability benefits.

Increases Burden

Rep. John W. Byrnes of Wisconsin, senior Republican member of the Ways and Means committee, said such an increase would necessarily mean increasing the pay roll tax on employees and employers that finances Social Security.

"The pay roll tax already increased automatically this year, and another increase, plus possibly an income tax increase, adds up to quite a burden on the people paying for these benefits," Byrnes said.

Johnson did not mention financing of his proposal. Speculation was that it would require imposing a pay roll tax on the first \$7,000 earned income, instead of the present \$6,000.

Hart Proposes To Ban Doctors' Sales Of Drugs

WASHINGTON (AP) — Sen. Philip A. Hart proposed today that physicians be prohibited from selling any drugs or devices that they prescribe.

The bill he planned to introduce also would ban doctors from owning interests in optical or drug companies if their intent was to prescribe the products for their own profits.

The Michigan Democrat, chairman of the antitrust and monopoly subcommittee, said hearings had uncovered many cases of doctors selling "at a profit" the products that they prescribe.

"The buyer clearly is in a position where he can neither shop around nor refuse to buy," the senator said. "The temptations to overprescribe and to overcharge are obvious and there is considerable evidence that they have been yielded to."

'Tolls Must Be Removed' Romney Tells Legislators

LANSING (AP) — Removing tolls on the Mackinac Bridge would contribute more than any single governmental step to the Upper Peninsula's continued resurgence," Gov. George Romney said today.

In his state of the state message to the Legislature, Romney repeated his often-made assertion that "one way or another, the present stifling tolls must be removed."

The Legislature passed a bridge refinancing bill last ses-

sion, but the governor called it meaningless.

The bill permitted the state to issue general obligation bonds and use the funds collected to buy up the higher-interest revenue bonds which financed construction of the span.

But the measure limited interest on the proposed new bonds to 3.25 per cent. It was considered unlikely buyers could be found at that rate in the current tight-money, high-interest situation.

In the section of his speech

Governor Demands Action On Taxes, Target April 1

Republican Waldron Is Elected Speaker

LANSING (AP) — Republican Rep. Robert Waldron, aided by a Democrat who didn't vote, was elected speaker of the House of Representatives Wednesday on a 55-54 party-line vote.

One Democrat said, however, he would try to oust the Grosse Pointe Republican the first time more Republicans than Democrats are absent from the House.

Democratic Rep. E.D. O'Brien of Detroit permitted Waldron's election as speaker of the equally divided House as he voted with the GOP on procedural questions, then abstained as Waldron beat Rep. William A. Ryan, D-Detroit.

Fellow Democrats, in floor debate, termed O'Brien a "Judas" and a "turncoat." Off the floor, some called him worse things than that.

The speaker is presiding officer of the House and holds the chamber's most powerful job. He appoints all committees and most House employees and decides which committee shall handle each bill. He decides parliamentary questions and his recognition is required before a member may speak on the floor.

O'Brien's break with his party was apparently caused by anger that Rep. Joseph Kowalski of Detroit, last term's speaker, was chosen by the Democrats as their floor leader.

O'Brien's previous promise not to vote for Kowalski forced Kowalski to abandon his attempt at re-election. The Democratic caucus turned to Ryan, hoping he could attract all 55 Democratic votes.

Rep. Albert Kramer, D-Oak Park, said he would seek to remove Waldron as speaker as soon as the Democrats achieved a temporary majority in session.

"I would suggest," he told Republicans angrily, "that all of you be in your seats each and every day."

Baker Lawyer Asks Dismissal

WASHINGTON (AP) — U.S. Dist. Judge Oliver Gasch has under advisement today a motion to dismiss the criminal charges against Bobby Baker because of electronic eavesdropping in the case.

Government prosecutors said they would develop testimony today involving the year 1962, when Baker is charged with filing a false income tax return.

He was secretary of the Senate Democratic majority at that time. Baker is charged also with income tax evasion in 1961 and with fraud and conspiracy in the handling of money.

Government prosecutor William O. Bittman said the trial, which opened Monday, was moving so quickly that "I think we can conclude our case in two weeks — more or less."

Baker's chief attorney, Edward Bennett Williams, filed the motion Wednesday to dismiss the charges. The government acknowledged electronic bugging of a meeting in a Los Angeles hotel room March 25, 1965, involving Baker and two others, but said the recording had no connection with the indictment against Baker.

Communist Toll In U.S. Drive Rises To 240

SAIGON, South Vietnam (AP) — American jet bombers pulverized the "iron triangle" with repeated strikes today while on the ground armor-led U.S. troops uncovered more Viet Cong base camps and large caches of enemy rice.

As the war's biggest ground sweep carried through its fifth day, U.S. headquarters reported the count of Communist dead rose to nearly 200 with 40 prisoners taken in the drive to clear the jungles 20 to 30 miles north of Saigon.

The U.S. air offensive over North Vietnam continued at a low pace because of persistent bad weather and ground action in South Vietnam also subsided into small and scattered clashes, except in the iron triangle.

Official weekly casualty reports released today showed drops in American and Vietnamese killed or wounded for the first week of the new year.

In the massive sweep of the iron triangle called Operation Cedar Falls, U.S. F100 Super Sabre jet pilots reported strafing runs against Viet Cong snipers concealed in trees.

Other Air Force jets mounted 59 bombing runs on the triangle during the day to raise the total air strikes in the operation to 488.

On the ground, a task force led by the 11th Armored Cavalry Regiment pushed deeper into the jungle, U.S. spokesmen reported. These troops along with others in the surrounded triangle seized 508 tons of enemy rice Wednesday and today to bring the haul so far to 1,306 tons. Also seized were 217 weapons.

Ground forces reported uncovering five more Viet Cong base camps and destroying 10 bunkers in the last 24 hours.

U.S. spokesmen reported that evacuation of the triangle's Vietnamese peasants and villagers was continuing with 3,250 civilians already moved to resettlement centers.

The objective of the operation is to render useless the jungle headquarters and staging area from where the Viet Cong has menaced Saigon and vicinity with guerrilla attacks and terrorist activity.

US Steel Joins In Price Boosts

PITTSBURGH (AP) — U.S. Steel Corp., the nation's largest steel producer, joined some other firms Wednesday in raising prices on tubular steel products.

U.S. Steel announced increases averaging 2.5 per cent on oil country goods, line pipe, standard pipe and raw conduit manufactured by the continuous welding and seamless processes.

Jones & Laughlin Steel Corp. began the series of price hikes last week with increases the firm estimated at 2.7 per cent.

State Spending Rides On Reform

LANSING (AP) — Gov. George Romney vowed today to take no state spending action without a major tax overhaul.

In a state of the state message to Michigan's 74th Legislature, the Republican governor warned that financial stability is Michigan's greatest problem and he outlined recommendations ranging from taxes to traffic safety to time standards.

Romney's political career could ride on success or failure of his programs in a legislature in which Republicans hold a slim edge.

Although he has said he is exploring the possibility of seeking the Republican presidential nomination in 1968, he has denied he is a candidate. A major failure could damage his national image and influence any decision to seek the nomination.

Romney's 2,500-word message stressed tax action as the "Number One job of this legislative session."

New Money Needed

He told the 148 House and Senate members that "the 1967-68 budget now being prepared will require about \$100 million in new revenue merely to continue the programs now underway—merely to stand still—without making a single improvement in present programs or adding a single new one."

He said at least two thirds of last July's estimated \$167 million state surplus is committed to meeting this year's obligations, adding that the surplus will have shrunk to \$50 million by next July.

Calling for tax action by April 1, Romney told lawmakers the central issue facing Michigan is whether needed new revenue should come from increased rates on current taxes, coupled with a variety of new nuisance taxes, or from an overhaul of the present tax structure.

"In my judgement, new revenues should be obtained in such a manner as to correct inequities, rather than increase them," Romney said.

Tax action is necessary by April 1, he said, so that a tax reform program can be implemented by July 1 when the fiscal year begins.

Any delay would force higher tax rates or cutbacks in public services, he said.

Wants Revenue In Sight

He said he does not "intend to sign any appropriation bills for next year 'until I can see where the money is coming from—until I can see sufficient revenue to meet the costs of government."

Romney has met with Republican and Democratic legislative leaders to outline essentially the same tax matters included in his state of the state message.

The governor also touched on several favorite subjects, recommending stimulation of individual citizen action and public-private partnership in meeting state problems, and the strengthening of state and local government.

He also slipped at the federal government warning that "if the state and local governments fail in their responsibilities, the vacuum will be filled—more expensively, more rigidly, more remotely, and often less productively."

Romney, beginning his fifth year as governor, said he has done everything in his power "to give Michigan a lean, vigorous, smoothly functioning state government."

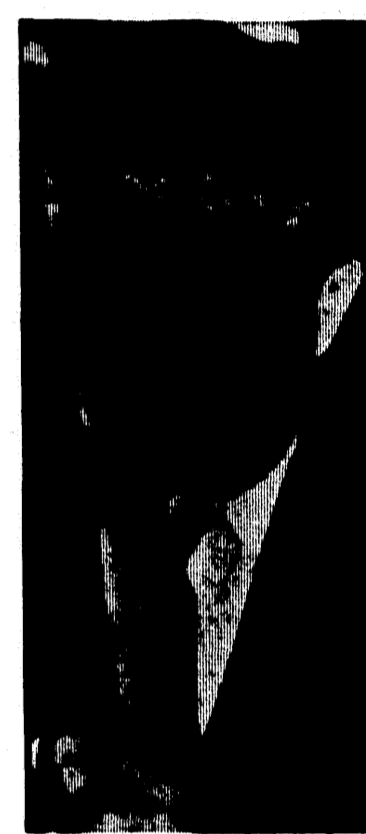

He cited reorganization of the executive branch into 19 departments "for greater efficiency and service" and said efforts of top management experts during the past four years have resulted in saving taxpayers millions of dollars every year.

To Improve Management

He said he is expanding on this work by management experts by asking a small group of "eminent citizens with imagination and management and research skills to stimulate a new program of Total Research on Improved Management — T.R.I.M."

He said his task will be to identify and test new and efficient methods in all fields of public service.

Calling for strengthened state and local government, Romney renewed a recommendation for an office of local and urban affairs in the executive office to serve as a focal point of contact

Governor George Romney

Doctor Visions Transplant Of Human Hearts

RICHMOND, Va. (AP) — Some time in the not too distant future, possibly "within five years," a human will receive a heart transplant, according to a surgeon at the Medical College of Virginia.

That is a reluctant prediction of Dr. Richard J. Cleveland, one of two surgeons who have transplanted hearts from dead dogs to live ones. Some of the dogs lived more than 48 hours without additional treatment.

Dr. Cleveland's hesitance stems from the awareness that premature conjecture might lead to false hopes by persons with chronic or terminal heart disease.

The prediction was made after disclosure that Dr. Cleveland and Dr. Richard R. Lower have successfully transplanted dog cadaver hearts.

The experiments were outlined in a paper prepared by the surgeons for a transplantation conference in Santa Barbara, Calif.

Explaining the paper in an interview Wednesday, Dr. Cleveland said that of the first 10 dogs receiving cadaver hearts, eight lived more than 48 hours without treatment to combat the natural rejection reaction that occurs in humans and animals.

Other canines who received transplants from living donors have lived more than a year, he said.

The natural reaction of a body receiving a transplanted organ is to reject it. Dr. Cleveland said, the rejection rate among kidney transplants has been high. Death often results from potent antirejection drugs.

It's possible the heart may not be as incompatible as the kidney, Dr. Cleveland said. "This is just an impression. I wouldn't want to say this is based on scientific fact."

Consequently, efforts are centered on development of new drugs to combat rejection, and experiments to preserve cadaver hearts "for what we consider to be a prolonged period of time."

Dr. Cleveland said dogs used in the experiments were "completely unmatched animals," having only the same size in common.

Jaycees To Pick Outstanding Men For Recognition

Jaycee Week, the annual anniversary observance of the U. S. Jaycees, starts next Sunday in Escanaba. Bob Bink, local Jaycee president announced today.

A highlight of the week's events will be the presentation of a Distinguished Service Award to Delta County's outstanding young man who has made an outstanding contribution to the community.

The DSA winner will be named at the annual DSA banquet at the Dells Supper Club on Saturday, Jan. 21. Also, at this banquet, the Jaycee will honor the young man in the

county who excelled and was the best in his field of agriculture. This man will receive the Outstanding Young Farmer award. Trophies will also be presented to the managers of the champion team in the Little League and the Minor League.

During Jaycee Week observances here, the U. S. Jaycees will recognize America's Ten Outstanding Young Men of 1966 in Jekyll Island, Ga., with U. S. Jaycee President Bill Suttle making the presentation.

The Distinguished Service Award winner in Delta County will be entered in the Michigan Jaycee contest, which picks the five outstanding young men—21 through 35 in the state. The state winners will in turn be entered in the national competition which chooses the nation's ten outstanding young men.

Jim Vrbensky, chairman of the banquet, said that this year, "in order that we may enter our winner in the state competition, we will comply with the state ruling of ages. The age limits are between age 21 through 35."

Persons who know a man who has done an outstanding service to Delta County, over and above his regular occupation, should direct to the Escanaba Jaycees a letter nominating him as the 1966 Outstanding Young Man of Delta County.

"In your letter of nomination, you are asked to include his name, address, phone number, occupation, and age, along with services he has performed to merit your nomination," said Bink. Mail nominations to: The Escanaba Jaycees, DSA Nominations Committee, Box 478, Escanaba, Mich.

Area Audio-Visual Program Among Best In Nation

The audio-visual department of the Escanaba Area public schools has been selected by the National Education Association as one of 300 outstanding departments in the nation and one of 10 in the state of Michigan.

The N. E. A. said it will send a team of audio-visual experts to Escanaba sometime during February, March or April to inspect the area department for determination whether it will be one of 10 chosen for special recognition.

Selection of the Escanaba Area department was made on the basis of questionnaires filled out and returned to the N. E. A. Purpose of choosing 300 departments is to set up a directory of "good" programs for other school systems to visit.

Director of the Escanaba Area program is Vernon Ihlenfeldt.

C&NW To Buy New Equipment

The Chicago and North Western Railway Co. today announced a 1967 capital expenditure program of \$46,000,000, of which approximately \$34,500,000 is earmarked for the purchase of new equipment and improvement of existing equipment.

Ben W. Heineman, chairman of the North Western, said the company's 1967 capital program is one of the largest in the railroad's history, exceeded only by the capital programs of 1965 and 1966.

"Although our 1967 capital budget is less than that of last year," said Heineman, "it is more than one and one-half times the average annual outlay for the past ten years and will enable us to continue our stepped up program of providing the services and the kinds of equipment which our customers want and need."

The North Western's chairman said the railroad will spend more than \$25,000,000 for the acquisition of new equipment, with more than \$18,000,000 of this amount going for the purchase of almost 1,000 new freight cars of various types.

In addition to the purchase of new cars, the company will improve and give heavy repairs to approximately 2,800 freight cars at the railroad's modern Clinton, Iowa, shops.

The purchases of new freight cars include 500 of the so-called "jumbo" covered hopper cars of 4,427 cubic foot capacity for use in more efficient movement of grain and other bulk commodities. All are scheduled for delivery in January and February of this year.

Approximately \$6,344,000 will be spent for 23 new diesel electric locomotives, 20 of which are 3,600 horsepower units and 3 of which are 3,000 horsepower engines. All the locomotives are scheduled for delivery to the railroad in the first three months of this year.

The railroad also has placed a \$2,796,000 order for 16 double-deck, air-conditioned suburban coaches to add to its fleet of 231 such cars, already the largest fleet of its kind in the world.

Briefly Told

Iron Ore Handlers Lodge 400 will meet at the Eagles Club at 7 p.m. Friday.

The meeting of the Delta District Practical Nurses Association has been postponed until February.

An immunization clinic will be held Friday from 2 to 4 p.m. at the Delta County Building. Measles shots will be given all children from 1 through 14 years of age.

There will be a Women's Farm Bureau group meeting at Jack's Restaurant in Rapid River on Tuesday, Jan. 17. Lunch will be served at 11:30 a.m. followed by the business meeting and planned program.

The Promenaders Square Dance Club is having a dance Saturday at 8:30 p.m. in the student center of Bay de Noc College. Please use south entrance. Virgil LaJoie of the Soo will be the caller.

Delta Chapter, Order of DeMolay will be attending a district meeting at Iron Mountain at 10 a.m. EST on Jan. 14. All advisors and members interested in attending are to call Robert Jenschak, 786-5258.

A meeting of the Holy Name Booster Club will be held at 8 p.m. in the multipurpose room. Plans for the annual sports banquet will be made. A wrestling match between Holy Name and Manistique matmen will be staged starting at 7:30.

An important rehearsal for all Barbershop singers is scheduled tonight at 8:01 at the Senior Citizens' Drop-In Center, 716 Ludington St. A board of directors meeting will precede the rehearsal. John Chown is guest director for the evening. Lunch will be served.

Mrs. Henry King, president of the Escanaba Denary of the Marquette Diocesan Council of Catholic Women, announced today there will be a meeting of the Escanaba Denary, Monday, Jan. 16 in St. Thomas parish hall at 7:30 p.m. This meeting is open to members of all the units in the denary. Plans for the Diocesan convention to be held in Escanaba in April will be discussed.

MASKED DISSENTERS on the University of California campus at Berkeley are part of new tactics by students to win more concessions from the school's administration. Calling themselves "The Campus Friends of the Lone Ranger," the students also plan a proposal that Bob Dylan, Albert Einstein and Socrates be hired to run the school. The protesters, Darrow Bishop, is selling copies of the Berkeley Barb, a protest paper.

Is Cold War Over?

LBJ Believes It Is

WASHINGTON (AP) — Vice President Hubert H. Humphrey says President Johnson believes the cold war is over. Humphrey predicts Congress will respond by lowering East-West trade barriers.

Although there is strong opposition in Congress to relaxing restrictions with countries which oppose the American

course in Vietnam, Humphrey said in an interview he believes members are in a mood to "face up to changing world conditions."

"Internationally the President is cutting some new ground with his call for passage of an East-West trade bill and his request for ratification of the consular convention with the Soviets," Humphrey said. "I believe that both of these should and will be approved."

"I know that as far as he is concerned the cold war is over and he is looking ahead to an era of international cooperation which could lead to a lasting peace."

Tanker Stuck In Straits Ice

ST. IGNACE (AP) — The Detroit, a 250-foot tanker, became stuck in the ice of the straits of Mackinac near St. Ignace Wednesday.

The Coast Guard said the vessel, with a cargo of 14,000 barrels of gasoline, was in no danger.

The Detroit, bound from Chicago to Mackinac City, became lodged in windrows four to six feet in height.

The Coast Guard ordered the cutter Mackinac to proceed from Cheboygan to assist the Detroit.

Menominee Plans For Historical Society Meeting

The organizational meeting of the Menominee County Historical Society will be held Tuesday, Jan. 17 at 7 p.m. (C.S.T.) in the Supervisors' Room at the Menominee County Court House.

All persons interested in the preservation of historical articles, photos, artifacts, equipment, tools, etc., are invited to attend the meeting.

To aid in the organization of the Menominee County Historical Society, the following guests will be present: William Alderfer, executive secretary; Dr. James Kelsey, Michigan State historian; and Charles Folio, Delta County Historical Society.

The Menominee County Board, recognizing the value of a Menominee County Historical Society, named a committee consisting of R. Myron Ross, Walter Tamm and Roger Hull to organize the Society.

Youth Corps Plan Seeks Candidates

Ray LaPorte, director of the Menominee - Delta - Schoolcraft Community Action Agency, announced today that the deadline for enrolling in the Tri-county Neighborhood Youth Corps program has been advanced to Jan. 31.

LaPorte said enrollments after that date will not be accepted, even if the quota for the area has not been filled.

The three counties can accept 25 in-school corporamen and 13 out-of-school.

"Our counselors are just starting to interview candidates

so we don't know exactly how many we have enrolled to date," he reported.

The Neighborhood Youth Corps program in Delta, Menominee and Schoolcraft counties is part of a larger Upper Peninsula plan financed by the federal government. Purpose of the program is to give potential school dropouts from low income families an opportunity to earn money while maintaining their education.

The out-of-school youths accepted are dropouts or those who have graduated from high school, but who have not obtained suitable employment or training.

LaPorte said the out-of-school youths accepted will be placed in positions of training in the hope that when the program expires their employers will give them a regular job.

Youths up to age 21 are eligible, providing total family income falls within the following limits: Unrelated individual, \$1,540; two persons, \$1,990; three persons, \$2,440; four persons, \$3,130; five persons, \$3,685; six persons, \$4,135; seven persons, \$5,090.

LaPorte said youths accepted for the program will be able to work up to a year for any non-profit public agency with positions available. Earnings will be \$1.25 per hour with out-of-school youths allowed to work up to 32 hours per week.

Bad Day

LOS ANGELES (AP) — Wednesday was a bad day for the U.S. National Bank in the Lennox District of Los Angeles. Police said a gunman made off with \$1,795 during a holdup shortly before noon. Three hours later, another gunman made off with \$12,030.

EXCEPTIONAL OPPORTUNITY

Full or part time. I would like to interview a man between ages 25 and 45, who wants to consider a business opportunity which is very worthwhile. This man should have a reasonably good education, teaching experience if possible, and preferably some executive experience. We are prepared to invest considerable money in the right man, so if you are interested in earning from \$2,000 to \$15,000 a year to start, depending upon your qualifications, Write Box 7088, care of Daily Press giving a complete resume.

Snow Problems:

City May Retire Old Snow Loader

The excessive snowfall is creating problems for everyone, including the Escanaba city crews who are trying to keep ahead of the storms and hoping that the snow-loader holds out for the winter.

City Manager George Harvey in a report to the City Council directs attention to the problem of the snow loader, an old piece of equipment that is getting a hard work-out this winter.

After consulting with Kenneth Touniak, superintendent of the public works department, the manager said that he will propose to the Council that the equipment be replaced. The next may combine a front-end loader equipment for summer use, which could be changed to snow loading for winter.

"The present machine is about 20 years old and was purchased second hand, and at times we have difficulty getting parts for it," Harvey advised the Council.

"If we are without a part and are unable to use this piece of equipment we find ourselves in a predicament. In our present operation we have to utilize a piece of equipment borrowed from the Road Commission to take care of the airport and our streets."

Since delivery would be slow, the Council will be asked to act on bids for the purchase of a new machine at its meeting on Feb. 16, with delivery anticipated next summer.

Most of the public works equipment worked 24 hours a day from the start of the storm

through last weekend, and now the hours have been cut to 11 a day as the critical period is passing.

The abundance of snow has created other than traffic problems in the city, the manager said.

"It seems we have a rash of snowmobiles this year and they are utilizing Ludington Park, which is fine," Harvey said.

"However, we must remember that Ludington Park hill is used by many youngsters for sliding. I was concerned about these snowmobiles running too close to the youngsters, and I have asked the police chief to keep a look-out there so that there will be no personal injuries. There is a lot of room around the beach house and all through the park, so there is no reason for the snowmobiles to operate near the youngsters."

Because of the high snow banks at street intersections in the city, Police Chief Harold Finman has suggested that motorists attach a piece of colored cloth or plastic to the top of their car radio antennas.

This will help make them visible to other drivers and perhaps reduce the number of collisions caused by the high snowdrifts.

Parcel Post Rates Rising

Use of ZIP Code will make it easier to mail packages after Jan. 15, Postmaster James E. Pryal of Escanaba said today.

New rates and a new system for identifying parcel post zones will go into effect on that date as provided in legislation signed into law by President Johnson on Sept. 20, 1966, the postmaster pointed out.

The rate increases will average 10 cents a parcel Pryal said. Starting July 1, the law provides for a series of size and weight increases on packages mailed between first-class offices. Escanaba is a first class office. The size and weight increases will be in five annual steps, the last coming on July 1, 1971.

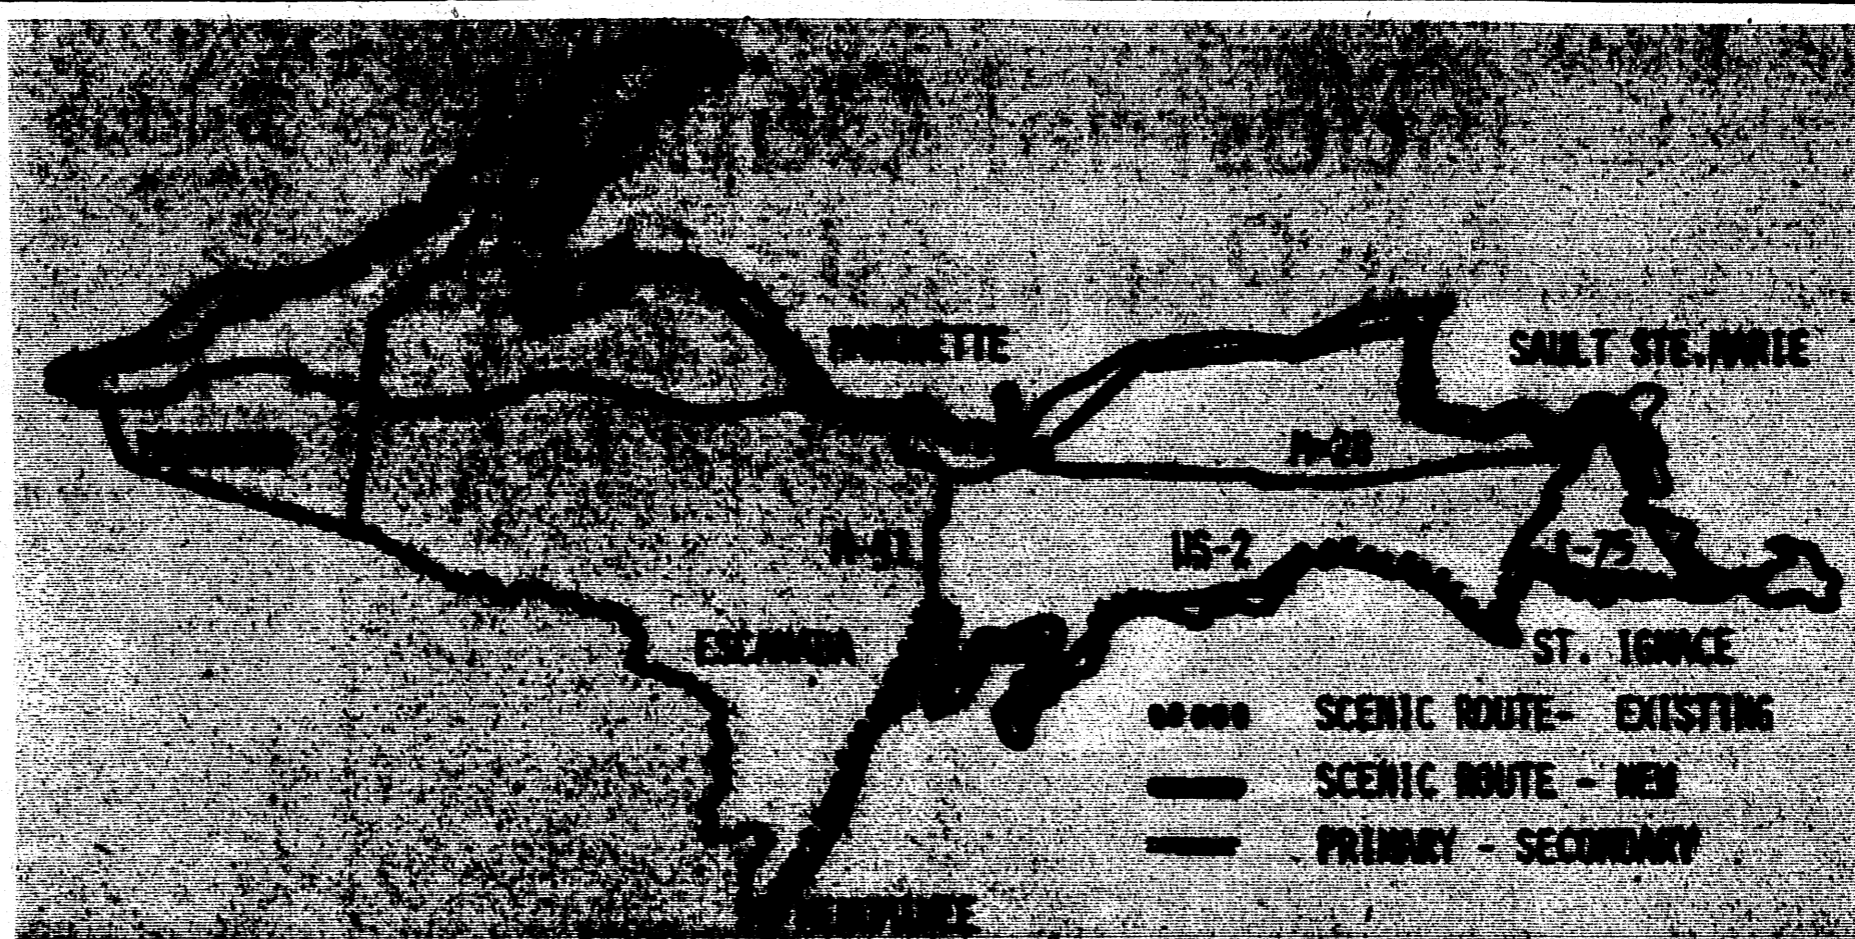

Use of ZIP Code in the recipient's address will enable the sender or a mail clerk to quickly determine the proper zone, and thus the rate, for the package. The zones will be based on the distance a parcel travels between the 552 sectional centers in the country, Pryal said.

By consulting a simple chart, which is available at all post offices, the zone can be readily identified because the first three numbers of the ZIP Code represent the sectional center. This replaces a method in which a directory often had to be consulted to locate the proper zone for each of the nation's 33,000 post offices.

The new rates will range from 40 cents for a three-pound parcel destined for local delivery to 60 cents for the same parcel to zone 3 (150 to 300 miles) to \$1.05 to Zone 8 (over 1,800 miles). The new zoning method will also apply to air parcel post, catalogs and to publishers who pay zone rates on the advertising portion of their periodicals.

Postmaster Pryal noted that all parcels mailed between post offices within the Iron Mountain sectional center will be charged at the first zone rate. There are 188 post offices within the Iron Mountain sectional center.

The new rates are expected to provide \$74 million a year for the Post Office Department. The later size and weight increases will add another \$32 million a year. The additional revenue is to help keep the Department within 4 percent of costs on parcel post as the law requires.

Scenic Highway Program Urged In U.P.

Shoreline highways that would include roads around Delta County's two scenic peninsulas—Garden and Stonington—are part of an ambitious construction program that is being pushed by a new state organization of road builders.

The Great Lakes Shoreline Committee, now being formed and centering in the Sault Ste. Marie area at its inception, wants to hurry along plans already on the drawing board for new shoreline and scenic routes.

"We've had no new roads for the past 15 years and if we don't get something underway right now, we may have to wait another 15 to 20 years for these roads which are needed and in demand by our traveling public," said I. L. Lewis of Paradise, a veteran county road commissioner and interim chairman of the committee.

Cost \$97 Million
Lewis says he is getting help from all parts of the state in promoting the scenic and shore road idea. He said that within weeks the committee will be expanded to include every major resort and waterfront region of the state.

Northern Natural Plans Expansion

WASHINGTON (AP) — Northern Natural Gas Co., Omaha, has applied for authority to expand its pipeline system and initiate natural gas service to 51 communities, the Power Commission announced Wednesday.

The proposed construction in Minnesota, Iowa, Wisconsin, Michigan and Nebraska would cost about \$6.7 million. The announcement did not list the 51 communities.

Mao Calls Army To Crush Foes

TOKYO (AP) — Mao Tse-tung has delivered an ultimatum to his enemies, called on the army to help crush them and obtained pledges of loyalty from military units throughout China, organs under his control reported today.

There was no indication Mao's opponents were buckling under the pressure. Peking Radio said that Mao has ordered complete reorganization of the "cultural revolutionary committee" of the armed forces, a possible indication of military opposition to Mao despite the claimed pledges of support.

The new turn in the Chinese Communist party chairman's seething struggle with the party faction headed by President Liu Shao-chi coincided with an admission that there has been fighting in Shanghai. Mao, 73, ordered the city quarantined and all travel in and out limited.

The appeal to the army — and the reported swift response — also suggested that the 2.5-million-man armed forces may be wavering in their loyalty to Mao and Defense Minister Lin Biao, his No. 1 ally and nominally in control of the army.

The army's declaration of loyalty followed an editorial in the Peking People's Daily and the

Lewis, who is serving locally with Paul P. Hoholik, a heavy equipment dealer and Carl A. Modine, an insurance man both from the Sault; and Robert LaPointe of DeTour, a gasoline dealer, says the proposed road building program would cost an estimated \$97 million.

The road promotion program is based on plans already outlined by the Michigan State Highway Department and given tentative approval by the Federal Bureau of Roads.

"We know the Michigan Highway Department has done all it can on the scenic roads and today its highway allocations are spent into 1972, but we have to do something about this now," said Lewis.

Roads Needed Now
Lewis and the committee contend that the new scenic highways would pay for themselves within a few years from gasoline, service, sales and real estate revenues they would help to encourage.

The committee asked the state legislature to earmark funds for the scenic road work, with their chief argument being that these are funds which are going to bring big returns from the tourist industry.

"We're losing money right now by not having these needed roads for our traveling visitors. They see what the Canadians have to offer with their fine Lake Shore drive and ask why we can't do the same," said Lewis.

"Our purpose is to get each area affected by the proposed road program interested in these projects now. We have to keep this project moving and it would be extremely helpful if residents of areas involved write to the governor, their state senators or district legislators," Lewis added.

Coordinate Efforts
Meanwhile, the committee is working with various legislators, members of the State Highway Department, the Michigan Good Roads Federation, County Road Association

To Aid Student Shot By Bandits

YPSILANTI (AP) — Students at Eastern Michigan University will hold a fund-raising rally Friday for hospital expenses of a 19-year-old student wounded by holdup men.

George Reck Jr., a sophomore in education at the university, is in serious condition at an Ann Arbor hospital. He was shot four times by men who robbed his father's pharmacy in Hamburg Saturday night.

Young Reck's 50-year-old father was shot to death by the gunmen, who escaped.

EMU students, expressing "a concern on the part of all of us because of what has happened to one of us," also voted the proceeds of the Jan. 21 Blue Book Dance to Reck's family.

He said \$100 million is needed for this work and said that the national scenic highway system would do as much for Michigan as the freeway construction program has done for the economy of our larger cities.

'Copter Doesn't Scare Antelope

FARMINGTON, N.M. (AP) — A herd of 30 antelope has been causing damage to wheat fields and orchards in the Farmington area.

The New Mexico Department of Game and Fish decided last week to use a helicopter to frighten the antelope into pens so they could be transported further east.

The fleet-footed antelope largely ignored the helicopter and still are on the range. The reason: their present range is close to the Farmington airport and they are used to low-flying aircraft, game officials explained.

Getting up nights, backache, leg pains, frequent, scanty flow may be nature's warning of functional kidney disorders—**"Danger Ahead."** Give kidneys a GENTLE lift with BUKETS, a tonic-diuretic. If not pleased in 4 DAYS, your doctor back at any drug counter. NOW at People's Drug Store.

Detroit Has UFO In Color

DETROIT (AP) — Another report of unidentified flying objects (UFO) came Wednesday, this time over Detroit—and once again with photographs.

Mark Osterman, 31, a dealer sales representative for Cities Service Oil Co., said he saw the objects Jan. 3 while photographing a service station on Detroit's West Side.

He produced a small, color Polaroid photo showing two light yellow oblong objects in the sky above the station. The objects appear to be ringed by halos of light.

The Air Force, meanwhile, continued to investigate a report by two brothers of a UFO over Lake St. Clair near Selfridge Air Force Base.

The brothers, Dan Jaroslaw, 17, and Grant, 15, also had photographs which they said they took of the object when they saw it Monday.

Osterman said the objects he saw were in view for about two minutes and then departed at "unbelievable speed."

"I've never seen anything move so fast," he said.

Osterman said he was a flight engineer and gunner for the Air Force during the Korean War.

The objects had shiny surfaces reflecting the sun, he said, and left before he had time to take a second picture.

"They were in perfect formation," he said. "They made their stop at the same time—almost like they were joined."

"I don't think anything built in this country could go as fast as these objects went," he said.

The Federal Aviation Agency reported no unusual objects in the area on Jan. 3. It also had no reports of strange objects near Selfridge Monday when the Jaroslaws said their sighting was made.

More Federal Taxes

President Johnson's State of the Union message to the Congress and the Nation on Tuesday showed a strong sensitivity to recent criticism—especially in the Nov. 8 election results—of the Administration's conduct of the War in Vietnam and its domestic program, but no real inclination to change course. He avoided mentioning his "Great Society" by name, but said he had no intention of scuttling his domestic programs.

The major goal of the administration in Congress will be a 6 per cent surtax on corporate and personal incomes.

This means that the taxpayer would be charged his present income tax rate, plus 6 per cent of the amount it now costs. If he now pays \$1,000 a year tax he would pay \$1,060.

Immediate reaction to the President's request, from both Republican and Democratic spokesmen, indicated that it won't be easy to get Congress to enact the surtax. No congressman wants a tax increase; it's no way to popularity, and Republicans want the President to trim his domestic program to balance a war-inflated budget.

Far from it, he's proposing that social security benefits (and taxes, of course) be increased 20 per cent.

Early in 1966 the President was urged to ask increased taxes to siphon off money whose spending would increase inflation. He didn't do it. Now some economists think it's late for such effect and that the economy is cooling off by itself and more taxes might trigger recession. But if the government is going to continue its huge spending in Vietnam and keep the Great Society's War on Poverty program going it will need more income.

The President said that prices didn't rise as much in this war as they did in World War II or Korea. His account was on need for more money to pay for the war. He said a \$126.7 billion budget and \$117 billion in taxes projects a \$9.7 billion deficit in 1967 and a \$135 billion budget and \$126 billion in taxes in 1968 projects a \$8.1 billion deficit that year. The surtax would raise about \$4.5 billion a year.

There was general and strong support of the President's declaration that we would stand firm in Vietnam. There was obvious determination to fight him in Congress on a business-as-usual continuation of the Great Society program, which, he acknowledged, had stubbed its toe in some ventures and should be redirected.

He cited Head Start, the pre-school program, as a success that could be built upon, but there was no acknowledgment of the serious questions raised by the nation about the Great Society program, its political orientation, its labyrinth of bureaucracy, its hurry to do something showy whether soundly conceived or not, its Washington centralism, its proliferation of new agencies to spend a billion dollars a year and more on anti-poverty programs on which existing government agencies already are spending \$10 billion yearly.

The President set himself up for the 1968 election year with a social security benefit increase that would take effect then, but even with the War in Vietnam chewing huge holes in American income he isn't inclined to stop some of the spending at home that would have a hard time justifying itself on a basis of accomplishment.

Congress will have to attend that. Fortunately it has nearly 50 new Republican House members who won't be inclined to go all the way with LBJ the way the 89th Congress's Democratic freshmen did.

Letters To The Press

Contributions are welcome. They cannot be over 300 words and must be signed with name, address and phone number of writer and names will be used. The right to condense letters is reserved.

THANK YOU

The Menominee - Delta - Schoolcraft Community Action Agency and the Bureau of Indian Affairs wish to express their gratitude for your contribution to the Hannahville Power Project which resulted in the electrification and furnishing of appliances to the Potawatomi Indians.

The individuals, service clubs, business organizations, Electrical Workers local unions, churches, UPCA and the Department of Social Services, who contributed time, material and skills to make the project so successful, graphically illustrate that Community Action does work, and it is possible to mobilize private resources to work together to accomplish common goals in the "War on Poverty."

You should take deep satisfaction in the knowledge that you have played a very important role in making it possible for a group of citizens to enter the mainstream of society, after decades of social, economic and educational deprivation. Moreover, your gifts are lasting ones since, while the immediate effect of providing electricity to the Potawatomi is one of joy, you have set in motion a program which will work to the advantage of generations to come.

Ray LaPorte, Director
Menominee-Delta-Schoolcraft Community Action Agency

BLESSING

Because of the generosity of people in this community, many families and individuals were enabled to share in the joy of Christmas and to enter the new year fortified with faith and hope.

We wish to express our deep thanks to all those who contributed to The Salvation Army Christmas program and so make it possible for the holiday to have real meaning for the less fortunate in our town.

No statistics on how many patients were visited or how many families assisted can give more than a meager idea of what has been accomplished. Who can measure the value of a new toy to a needy child, of a holiday cheer to a careworn mother or of a gift to a lonely invalid? Each act of kindness is like a pebble thrown into a pond and the ripples go further than any human eye can see.

Your contributions to The Salvation Army at Christmas have not only helped during the holidays, but have set off chain reactions of courage and trust that will go on helping during the year. Thank you all and may God bless you and yours in 1967.

Major Orville Butts
The Salvation Army

Investment Report To The Press

Industrial Outlook For Peninsula Good

By Paine, Webber, Jackson & Curtis

Some slackening of the pace would in fact be healthy, releasing the inflationary pressures built up by excess demand during 1966, but a decline from record levels does not add up to a recession in 1967.

Tight money and suspension of the investment tax credit will take their toll on 1967 capital spending, but consumer demand, more workers, higher wages, and increases in government spending will make it necessary for businessmen to expand their capacity. Capital outlays in 1967 should therefore, rise about 8%, compared with 17% in 1966, while a gain of 7% can be anticipated in consumer spending, down from 8% in 1966.

Gross National Product will increase about \$50 billion to around \$780 billion, compared with a gain of \$50 billion in 1966.

Wages May Rise

Labor costs may rise 5% in 1967 — and the possibility remains of a tax increase — but this would be offset at least partially by rising prices and increased productivity. As a result, profit margins may be somewhat lower, but overall earnings will be only slightly below 1966 record levels.

In summary, we do not expect a recession in 1967, and over the longer term, the outlook for the economy is bright. Within this overall framework, here is the 1967 outlook for Escanaba area companies and industries:

Auto Industry

The year 1966 was the second best in automotive industry history with production of about 8,600,000 cars — and 1967, despite the spate of adverse publicity, is projected as the industry's third best year at around the 8 million level.

Whereas industry earnings are expected to show a drop of 15 per cent for 1966, with an estimated 10 per cent decline in 1967, the market appears to have amply discounted these fundamentals. Accordingly, the stocks of the Big Three — General Motors, Ford and Chrysler — appear attractive at current prices.

Nevertheless, automakers face some thorny problems. New safety standards and smog control devices prescribed for 1968 models will mean extra costs to both manufacturer and consumer. Implementation of legal requirements, however, may be spread over a number of years, making them considerably easier for the industry to digest.

The auto industry also faces the recurring problem of negotiating a new labor contract in 1967. The present agreement expires in September, and the prospect of substantial wage increases will put an additional burden on margins, but there is no doubt whatsoever that consumer confidence will be restored to normal health, and automobile production will head upward again — toward the 10 million-a-year level.

Mead Corp.

Mead is an important producer of paperboard and white papers — and the 1966 acquisition of Westab provides representation in stationery and school supplies. The outlook for 1967 is bolstered by full-year production from a new 200-ton-per-day white paper machine and a 625-ton-per-day joint venture pulp mill. In addition, an 800-ton-per-day joint venture linerboard mill will begin production in January 1967.

Earnings for 1967 should advance about 25 cents per share over expected 1966 results of \$4.25 per share. However, this estimate may have to be revised if substantial industry-wide additions to linerboard and market pulp capacity result in lower selling prices in the year.

U.P. Power Co.

Serving a large portion of Michigan's northern peninsula, Upper Peninsula Power Co. is experiencing impressive growth. New mining, iron pelletizing and forest product operations — now in various stages of construction and planning — should substantially increase jobs in the area.

Moreover, new pulp and paper mills in the region should be little affected in the event of an economic downturn. And since iron pellets are more economic than ore to transport and use, any decline in steel production might well favor the pelletizing industry.

The company, intent on growth, is vigorously — and successfully — promoting electric appliances and electric heating and earnings are expected to increase sharply over the next five years.

North Western Railway

During 1966, the Chicago & North Western Railway has continued its drive for better earnings. Besides increasing railroad efficiency, management

diversification into non-cyclical chemicals should add a measure of stability. Full year earnings are estimated at a tax-free \$14 per share (on 1.5 million shares outstanding).

Consummation of the proposed merger with the Chicago Great Western seems likely in 1967 — and both the Chicago, Rock Island and Pacific and the Milwaukee Road appear to be merger prospects a few years down the tracks.

Although increasing labor costs and possible softness in traffic could hold down earnings next year, it is estimated that this well-managed railroad should earn \$11.50 per share in 1967. Over the longer run, proven ability to merchandise services and a continuing drive toward diversification enhance North Western's future.

Cleveland Cliffs

Through a number of jointly owned iron ore pelletizing operations, Cliffs is participating in one of the more dynamic phases of the steel industry. As a superior feed for blast furnaces, iron ore pellets are expected to grow even in times of relatively stagnant overall steel demand. Profits from this source have shown good increases, more than offsetting a gradual decline in Cliffs standard ore business.

Another substantial part of CCI earnings is represented by dividends from five steel companies in which it has large holdings. This segment has also increased in the past two years and will likely show a modest gain in 1967.

Thus, barring a serious recession, Cliffs could show moderately improved profits in 1967, perhaps in the \$7 range, following an estimated \$6.70 in 1966.

Calumet & Hecla

Through its Wolverine Tube division, Calumet & Hecla, Inc., has a leading position in copper-based and aluminum specialty tubing. These products are sold to refrigerator, air conditioner and building supplies makers and also to the power and processing industries. Wolverine and other manufacturing operations have contributed the bulk of recent years' sales and earnings, since mining operations have been unprofitable.

This is now expected to change. Three new mines in Michigan's Upper Peninsula with a total annual capacity of 25,500 tons of copper will replace the old 11,000 ton operation by early 1968, with nearly half of the new output becoming available for 1967.

Longer-range, a recent one find currently in initial stages of development may double C & H's captive copper supply again by the early 1970's. Profits in 1967 and 1968 should increasingly reflect the better "spread" between C & H's average copper cost and fabricated price realization. Earnings gains over the \$3 per share level attained in 1966 appear likely, assuming no drastic decline in fabricated volume and margins.

Inland Steel

Inland Steel Co. has an outstanding long-term record as a low-cost steel producer. Facilities are well located in the expanding Midwest, where steel consumption has grown approximately three times faster than in the East over the past decade.

A capital program of above-average magnitude, backed by sound finances, is designed to maintain and improve Inland's competitive position in the Midwestern markets. Initial benefits of a new 2-million-ton basic oxygen furnace installation should begin to be reflected in better profit margins over the next 12 months.

Thus, Inland may be one of the few major steel companies capable of reporting higher earnings in 1967 than in 1966, even if overall steel shipments show a moderate decline. The indicated annual dividend of \$2 yields around 6.5% at current prices.

Hanna Mining

Hanna Mining Co. is a leading producer of iron ore and iron ore pellets both for its own account and in partnership with several leading steel companies. It owns 28% of Iron Ore Co. of Canada, varying shares of a number of domestic ore/pellet operations, and participations in iron ore, nickel and aluminum projects overseas, including a rich one-billion ton iron orebody in Brazil. Domestic nickel and widespread shipping operations complete the picture.

Earnings have set new records in each of the past five years, primarily reflecting strong demand for pelletized iron ore as a superior blast furnace feed. Between early 1967 and early 1968 Hanna's domestic pellet capacity will be doubled while output at Iron Ore Co. of Canada will be ex-

panded 20% overall, including a near-doubling of its pellet operations.

At the same time, Hanna debt will be materially reduced to permit an increase in dividend payments to owners. Thus, it could earn well in excess of \$5 per share in 1968 and more in 1969, which compares with the \$4 level reached in 1966. Further gains are likely in the following years as several overseas projects become operational.

Kimberly - Clark

Kimberly-Clark Corp. is a leading producer of sanitary and printing papers and newsprint. Nearly one-half of sales are in consumer goods. All manufacturing operations are running at full capacity, and the company has important new pulp tissue and newsprint facilities coming on in 1967.

Earnings per fiscal year and (April 30, 1967) should reach \$4.35 per share, a better than 14 per cent gain over the fiscal 1966 results. Higher prices for tissue products, newsprint and printing papers will all contribute to the earnings gain. A five-year expansion program to be completed in the early 1970's enhances K-C's long-term outlook, but fiscal 1968 results may show only a modest improvement over 1967.

So Line Railroad consolidated operation puts this carrier in a much stronger position. Earnings have shown a consistent upward trend culminating in a record of approximately \$5 per share for 1966, as compared to \$4.39 (tax free) reported for 1965.

With results heavily dependent on grain traffic, 1967 should be a satisfactory year, as a large grain crop is anticipated and higher export traffic should be realized. However, it is questionable whether this increase in traffic can produce higher earnings as higher labor and other costs will more than offset this.

Copper Range

Copper Range Co. is now coming into its own as the country's leading producer of silver-bearing "lake" copper. For years, progress was hampered by physical limitations such as the size of the old furnace at the White Pine mine and the severely restricted floor space at the Hussey fabricating division in Pittsburgh.

At White Pine, a new reverbatory furnace came on line in December making possible a 30 per cent increase in output of refined copper in 1967. Further additions will double present smelter capacity to 300 million pounds annually by 1970.

Copper Range earnings, which averaged \$1.70 per share in the 1961-64 period, exceeded \$4 in both 1965 and 1966. Another significant move toward higher levels around \$5.50 now seems likely in 1967.

People, Events Of Yesteryears

From the Files of the Escanaba Daily Press

25 Years Ago

Five new local records were set in the third annual Escanaba Open skating meet held in cold, windy weather at Ludington Park. The best time of the day was that of Robert Peron in the 220-yard event, which was 30.8 seconds.

In the championship debates of the U.P. Debate League, Escanaba High School tied with Iron Mountain to capture the third place title. Wakefield High School came in first place, with Ishpeming following it for second.

50 Years Ago

B. P. Pattison, newly appointed food administrator issued a signed statement to the public appealing for the co-operation in carrying out the orders of the government for the conservation of food.

With 148 men accepted for the Camp Custer regiments from Delta County, the county quota of 214 is still 66 men short, according to the figures at the county clerk's office. The entire quota was filled, but with many physical disqualifications, many vacancies resulted.

Opening lead—♥10

Here is a hand from the "Ace of Spies" which shows how declarer can make a defender's trick disappear into thin air. Jason Winkman's description of the bidding and play:

"I raised Edna's spade overcall to four. No! My hand does not rate that much action but for all I know I might be preempting my opponents out of a good save."

"It looks like four losers off the top and it would have been if West had opened a club but West led a heart. East cashed his ace and king and led a third heart. Edna ruffed with the ace of trumps and played two rounds of trumps to wind up dummy. Then she led a low diamond from dummy. This was cuter than a litter of Great Danes. East was gaffed and he knew it. He happened to be one of our big name players but that didn't help him any. He squinted and counted but he couldn't wriggle off the hook. You see it, of course. If Edna had taken a premature discard on the jack of hearts before leading that diamond, East could have handled the situation with surgical precision and Edna would have been down one. But this way—if he hoped up with the diamond he would establish the diamond queen for an eventual home for dummy's losing club. East finally decided to take his fixing the other way and played a low diamond. Edna won the queen, reentered dummy with a trump discarded a diamond on the heart jack and called for the king of diamonds."

"East took his ace and sadly returned his cards to the board. He'd have to give her a ruff-suff or a free finesse in clubs—a triumph for the placed in spirit; but it was also a little monument to those of us who maintain that bridge can be taught."

TODAY'S QUESTION
Instead of bidding two hearts your partner jumps to two spades over your one heart. What do you do now?

Answer Tomorrow

BARBS

By WALTER C. PARKES

An honest golfer is one that tells the hole truth.

Every day brings a new tomorrow which you can put off things until.

The motorist who drinks his supper en route is on a crash diet.

Memory enables us to relive a happy experience; conscience is what recalls an unhappy one.

Ann Landers

Stay Put Kid, Don't Stretch Your Luck

Dear Ann Landers: My husband and I have been married for 40 long, boring, miserable, rotten years. I don't know how a woman of my intelligence and refinement could have chosen such a coarse, vulgar man.

All these years we have existed under the same roof, although we have nothing in common. He loves dirty jokes, hunting and fishing and plenty of sex. I am soft-spoken, cultured and genteel.

Next year the slob retires and the thought of having him at home, under my feet all day, gives me a sick feeling at the pit of my stomach.

I want to do some traveling with people of my own class. We are financially able to take some lovely trips but he'd rather hunt and fish with his own lowbrow friends.

I am still attractive and could enjoy the companionship of a high-type man. Would a divorce at age 62 be such a terrible thing? — A REAL LADY

Dear Lady: Your letter shows no trace of gentility, refinement or culture. And soft-spoken you aren't, kiddo.

If your husband has been able to stand you for almost half a century I think you'd better not press your luck. Stay where you are and travel when he goes hunting and fishing.

Dear Ann Landers: You've done it again — exaggerated for effect, and I'm not going to let you get away with it. You told Mrs. Shook-up, whose husband drove like a mad man: "If all the wives who had this problem were lined up in the emergency ward of any Los Angeles hospital to any morgue in Manhattan."

Allowing six feet for each wife, and considering the shortest route between Los Angeles and Manhattan is 2,474 miles, 2,117,120 wives would fit this space. This means 4.8% of the husbands who drive are speed maniacs. Why then does the driving population kill only .025% of the entire population yearly? Well? — D. D.

Dear Professor Einstein: Some people are just lucky, I guess.

Dear Ann Landers: You weren't very sympathetic to

the young woman whose husband is in Viet Nam. It seems her nosy mother-in-law wanted a phone call every time the young wife received a letter. You surprised me by taking the mother-in-law's side. I'm very disappointed in you, Ann.

I also have a husband in Viet Nam, and I, too, feel that a letter from a husband is a very personal thing. My mother-in-law calls me every time she gets a letter from my husband, and she reads the letter on the phone. Then she asks me to read MY latest letter.

I couldn't care less about what my husband writes to his mother and I think she has a nerve asking me to share my letters with her. So far I have gone along, (leaving out certain parts) just to keep peace in the family, but I'm reaching the boiling point. Any advice? — ALSO POSSESSIVE

Dear Also: There's a world of difference between letting your mother-in-law know you have received a letter from her son and reading it to her.

From now on telephone your mother-in-law when you receive a letter. Tell her that she sends his love and that the rest is man and wife talk. Boiling inside will only build an ulcer. Toots.

Unsure of yourself on dates? What's right? What's wrong? Should you? Shouldn't you? Send for Ann Landers' booklet "Dating Do's and Don'ts," enclosing with your request 35c in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a self-addressed, stamped envelope.

Winter's Backyard Birds

Silhouetted here are birds which are common backyard winter guests of Michigan residents, particularly of those who feed them. Can you identify these popular feathered friends? Here are the answers: 1) Tufted Titmouse; 2) Starling; 3) House Sparrow; 4) Evening Grosbeak; 5) Cardinal; 6) Bluejay; 7) Chickadee; 8) Hairy Woodpecker; 9) Nuthatch; and 10) Junco.

Memory Loss Is A Real Tragedy

By HAL BOYLE

NEW YORK (AP) — One of the worst things that can happen in life is the retreat of memory.

What a salvation, a glory and a citadel memory is to mankind! How meaningful it makes the march of existence. In the midst of present wonders, it reminds us of the wonders before. But, of course, memory isn't just the prisoner of the elderly. The first fierceness of a child's groping is to find something worth remembering and coming back to.

And you probably have the flavor of many dear memories in your own heart if you can look back and remember when—

Houses were built so that everybody kissed each other good night on the ground floor and then they went to bed upstairs. No one could pretend they were older or younger than they were because their birth date was written down in the family Bible, the big book with the dust on it.

Expected Indians

The only people who came into the house through the front door were encyclopedia salesmen or insurance collectors. At that time, for 10 cents a week, you could buy enough insurance to bury a child but not to educate him.

Irish people from Philadelphia visiting Irish relatives in Kansas City, Mo., expected that on arrival they would have to grope their way through dangerous Indians.

In any big town in America you could give a nickel to the street car conductor and get anywhere that was worth going to.

The height of sophistication was to see a vaudeville comedian a year after the first time you saw him, so that you could chuckle at the start of his familiar jokes.

Old men, after the labor of their manhood was done, would sometimes turn their restless fingers to the intricate making of quilts—anything to do that

kept them busy and proudful. Most arguments in America were about the interpretation of the Bible and what the weather would be next.

Mail A Status Symbol

You could always be a local intellectual if you spread the rumor around that you were taking a correspondence course in any subject. If you got a lot of mail, even the mailman had a higher opinion of you.

One of the ways a homely girl got attention was to tell fortunes through hand-reading. So often her heart was embelmed in her judgment of the outstretched male palm.

In every block in America there was a mentally unbalanced person, by birth or later circumstance, but everybody else in the block knew he was, and that was part of life, and it was better to keep him at home where he was known than to send him away to where he wasn't known. He belonged to the neighborhood.

The greatest family fun was to sit thoughtful before the fireplace and hear mother play the piano while sister sang a lovely old song, such as "Come Where My Love Lies Dreaming."

Federal Forests Near Record In '66 Timber Sale

Regional Forester George S. James announces that the Eastern Region of the Forest Service - U.S. Department of Agriculture set a record timber harvest for the fiscal year that ended on June 30, 1966. Private logging companies harvested over 534,063,000 board feet of timber from the 17 national forests in the region. This near-record harvest returned a total of \$5,398,799 to the U.S. Treasury, which was \$410,000 more than was returned for the previous year. Almost 71 per cent of the total volume harvested was pulpwood; the remaining 29 per cent were sawtimber products.

In the same period, the amount of timber sold also set a new value record. A total 650,867,000 board feet were sold to private companies for \$7,559,785. This was more than \$1,300,000 higher than the previous year, yet there was over 100 million board feet less sold than the previous year. This was because a greater portion of the total volume was high-value hardwood sawtimber.

In Michigan the Hiawatha Forest in the eastern Upper Peninsula sold 38.5 million board feet worth \$224,400; the Ottawa Forest in the western U.P. 50.8 million board feet worth \$406,728 and the Huron-Manistee Forest downstate 64.5 million board feet worth \$275,646.

Palsy Assn. Aids Speech Clinic

MARQUETTE — The United Cerebral Palsy Association of Michigan, a recipient of United Fund monies, has contributed \$4,825 to Northern Michigan University's Speech and Hearing Clinic.

The money will be used to purchase diagnostic and experimental hearing testing equipment for the clinic which offers services to Upper Peninsula residents.

Dr. Dale Lundeen, clinic director, said the new equipment will facilitate hearing testing for persons of all ages including pre-school children.

OFFICIALLY NEUTRAL, Thailand is increasingly involved in the Vietnamese war. The American military presence in the country now comes to almost 35,000 men, including most of the 13th Air Force. Its function is twofold — to support combat operations in Viet Nam and against the Communists in Laos and to support Thailand against spreading guerrilla activity in its own Communist-infiltrated north-eastern provinces, facing Laos. The United States has built the multibillion dollar Friendship Highway for easier access from Bangkok to the threatened provinces, pipelines and a chain of air bases, operating under the Thai flag. The newest, Sattahip, south of Bangkok, is one of the best-equipped in the world with 11,500-foot runways capable of handling B-52 superbombers, to date flying missions over Viet Nam from distant Guam. Naval facilities also are under construction at Sattahip.

New Driver Safety Code Is Proposed

LANESING (AP) — Drivers would be required to pay a fee to appeal license suspension or revocations under legislation proposed by the Secretary of State's office.

Richard Cook, deputy secretary of state, told the State Safety Commission that he would make the proposal to the 1967 Legislature because the crush of such appeals has more than doubled during the past year.

Cook said there were 24,161 appeals to the license appeal board in 1966 compared to 11,718 in 1965.

"More than two thirds of those who have their licenses suspended or revoked are appealing now," Cook said.

In Detroit alone, he said, three boards are required to work five days a week to handle the volume of appeals.

Cook said his department also is recommending that Michigan follow an Illinois law allowing police to pick up a driver's license when he is cited for a violation.

The court summons serves as a temporary license. The license is returned when the driver appears in court. This helps assure the appearance of the violator, Cook said.

Other suggestions for highway and driver safety legislation included: —Yearly compulsory motor vehicle inspections.

—A tighter law to prohibit blocking of traffic by demonstrators.

—Complete control of driver license tests and issuance by the Secretary of State's office.

—Legislation to require motorists suspected of drinking and driving to take a blood test for alcohol or give up their license.

—More separate courts for traffic violators where needed.

—Making driver education a part of the regular school program to eliminate present problems of reimbursement to schools.

—Stronger control by the Secretary of State's office over accident-prone drivers.

—Secretary of State's office control over licensing and inspection of commercial driving schools.

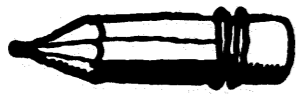

Billfold Found After 10 Years

FORT KNOX, Ky. (AP)—Workers repairing the wall of the bus station here found a billfold and turned it over to a terminal official.

Cards in the wallet identified the owner as Gerald F. Rians of Peoria, Ill., who had been a robbery victim at the terminal in 1947.

Officials said the robbers apparently punched a hole in the wall and dropped the billfold into it after stripping it of money.

TEENSY TRANSISTORS—The parts for modern electronic devices, getting larger and larger themselves, are getting smaller and smaller. This computer part, shown magnified 100 times above and in actual size on a fingertip below, turned out by a West German firm is little larger than a pinhead but contains 15 silicon transistors, 13 resistors and all necessary connections and switches.

State Firms Urged To Expand Trading In Overseas Areas

EAST LANSING (AP)—Michigan companies have done woefully little to enter the "profitable, safe business" of selling their goods overseas, says a marketing specialist for the

State Agriculture Department. Expanded world trade would put Michigan companies in a good position to demand better service and better rates on the St. Lawrence Seaway, John Schwartz added.

Schwartz spoke before the Michigan Processors of Raw Products Conference, opening a three-day session.

Part of the reason for Michigan's lack of vigor in international trade, he told a newsman, is the state's nearness to the primary markets of Detroit, Chicago, Cleveland, Milwaukee and others.

But, he added, "we need new outlets for expanding production. Agriculture has become more efficient."

Glenn Hawkins, a transportation and rate specialist with the agriculture department, also urged the food processors to expand foreign trade.

"More and more ships are coming into the Great Lakes via the St. Lawrence seaway," he said. "As tonnage becomes available at Michigan ports, service will come."

Currently, he said, only 900 firms out of some 14,000 in Michigan are engaged in international commerce.

Schwartz told the processors that exports would allow them to increase their volume without depressing established domestic markets.

Exports, he added, "will contribute up to \$24 a ton to the local economy of the port handling these goods."

Truck Seating Is Under Study

By CHARLES C. CAIN
DETROIT (AP)—The once lowly truck driver came in for a lot of attention this week as some of the nation's top automotive engineers tried to figure ways to make his lot—and seat—easier.

Four technical papers dealing with the truck driver's need for safer and softer truck seats were presented at the Society of Automotive Engineers.

The language, in some cases, was pretty complicated. One report, for example, said in part:

"A truck driver's chair should be related to the physiological parameters that govern seating comfort while, at the same time, providing a way of isolating the driver from vibrations inherent in an operating vehicle."

Basically that meant the truck seat had come a long way from the days when it was just a bench seat which transmitted every bump to the driver.

An SAE panel was told by Elmer Herder of Rockwell-Standard Co. and William Le Fever, an engineer, that with most attention focused on the question of better car seats, the truck driver in some respects had been short-changed on this item.

"The goal in designing truck seats is not only a matter of providing better riding comfort but also one that will contribute towards improved safety by reducing muscular and nervous tensions and physical fatigue," the Herder - Le Fever report said.

Pays For Fire

EL PASO, Tex. (AP)—After a fire caused \$400 damage to the home of Mr. and Mrs. Andres Avila, firemen said they found a jar full of money hidden beneath the eaves of the house.

Avila, 73, said there was \$1,500 in the jar but added he didn't know how it got there. He said it would be enough to repair the fire damage and pay the income taxes on the windfall.

L. Dougherty Guest Speaker At Jefferson PTA

President, Mrs. Paul Larsen opened the regular monthly meeting of the Jefferson Parent Teachers Association Monday, Jan. 9, at 8 p.m.

Monday, Feb. 13, has been set for the Founders Day Program to be held at the Escanaba Senior High School. Jefferson School will be in charge of the "room count."

A committee designated in finding uses for "Proposals of PTA Funds" was formed and these proposals will be voted on at the March meeting.

Mrs. Barbara Piquette, introduced the new student teacher, Miss Kathy Parkanen, who has been working with the second grade classroom. Mrs. Hebbards 1st grade room was the recipient of the room count award.

Program chairman, Mrs. John Backman introduced guest speaker, Miss Leona Dougherty, a speech pathologist, associated with the Bay de Noc faculty. Her topic, "Parents Role in Speech Correction," dealt with the problems children encounter from emotional attitudes in the home and also with speech impairments resulting from hearing loss and facial deformities.

The 4th grade room mothers were the social hour hostesses following adjournment of the meeting.

Marcia Bartol Bride Of Samuel E. Heath

Red and white poinsettias adorned the altar of St. Rita's Church in Trenary on Saturday, Dec. 24 for the wedding of Marcia Antoinette Bartol of Trautvik and Samuel Edward Heath of Iron Mountain.

Rev. Michael F. Hale officiated at the ceremony and providing traditional organ music was Elaine Anderson, a college roommate of the bride.

The bride is the daughter of Mr. and Mrs. Frank J. Bartol of Trautvik and the bridegroom is the son of Carmela El-Khoury and Jack Heath, both of Los Angeles, Calif.

Alencon Lace

The bride, given in marriage by her father, wore a floor length gown of re-embroidered Alencon lace over bouquet taffeta styled with a shallow scoop neckline trimmed with sequins and pearls, long sleeves and a slim skirt accented with a detachable court train.

Matron of honor for her cousin was Mrs. Timothy O'Reilly of Chicago and she was attired in a dark green velvet street length dress and a matching velvet double bow headpiece.

Serving as bestman was James Khoury of Iron Mountain and seating the guests were Robert A. Debelak of Trenary and Daniel Khoury of Iron Mountain.

Reception

A wedding reception was held at St. Rita's parish hall immediately following the ceremony.

The bride is a graduate of Eben High School and is presently a senior at Northern Michigan University where she is affiliated with Kappa Delta Pi Sorority.

Mr. Heath graduated from Iron Mountain High School, and attended Northern Michigan University where he was a member of Phi Kappa Tau fraternity. He is presently stationed with the US Army at Fort Leonardwood, Mo.

Mrs. Samuel Heath

Kathleen Hubred, Richard Scholtz Exchange Vows

MILWAUKEE—Miss Kathleen Hubred wore white and her attendants, green, for her recent wedding to Richard Scholtz at St. Luke's Church in Milwaukee. The Rev. Kaiser officiated at the 4:30 p. m. double ring ceremony and music was provided by Bruce Pomahac at the organ and the soloist, Mickey Rothe.

The daughter of Mr. and Mrs. Edmund Hubred, 1646 Madison Ave., chose a traditional bridal gown of lace and satin. The long sleeved fitted lace bodice topped a matching tiered lace skirt with satin overskirt and chapel sweep. Her shoulder length veil was caught in a crystal and pearl headpiece. To complete her ensemble, she carried a family heirloom prayerbook with white mums.

Miss Colleen Hubred served as her sister's maid of honor and a cousin Miss Cheryl Rothe, was bridesmaid. They wore identical empire style ensembles. The green floral brocade bodices topped skirts of green grosgrain. Their green satin headpieces were trimmed with pearls and they carried bouquets of yellow and gold mums.

The brother of the bridegroom, John Scholtz, was bestman. They are the sons of Mr. and Mrs. Arthur Scholtz of Hermansville. Glen Bartczak was the groomsmen. Ushering duties were performed by Harlan Hubred, brother of the bride, and Jack Scholtz, brother of the bridegroom.

A wedding reception for 400 guests was held following the ceremony.

Mr. and Mrs. Scholtz honeymooned in the Dakotas for two weeks and are now living at 4909 S. Nicholson Ave., Cudahy, Wis. The bride is employed by an insurance company and Scholtz works for an industrial firm in Milwaukee.

Prior to the wedding, the bride was entertained at three showers. The first was given by Mrs. Mary Lomasi, Mrs. Arthur Scholtz and Miss Dorothy Scholtz; the second by Mrs. Albert Klein, Mrs. Norman Rothe, Mrs. Arthur Rothe and Mrs. Joseph Gaworski; and the third by Miss Jan Yaeger, Miss Priscilla Woytal and Mrs. Lawrence Laudwehr.

Central Evening Circle Meets

The Central Methodist Evening Circle held its monthly meeting Monday evening at the church. Dinner was served by the Suzanne group.

Following dinner revotions were held in the chapel led by Mildred Gunderson. She also gave a talk entitled, "Happiness." Devotions closed with the singing of the hymn, "Happy the Home When God is There," followed by prayer.

Mrs. Ben Sandefur gave a talk on her experience in Indonesia and also showed colored slides. She also displayed a group of arts and crafts from that country.

Escanaba B.&P.W. Club Enjoys Talk On Iceland

Iceland was the subject of the informative and descriptive talk given by Keith Towns to the Escanaba Business and Professional Women's Club when they met Tuesday evening at the Sherman Hotel for their regular dinner meeting.

Towns, who is now an electrical contractor and co-owner of the Rapid Electric Sales and Service, spent 4½ years in Iceland during WW 2 while serving with the armed forces. In February 1942, he was selected to serve with the first Central Intelligence Agency group to be formed overseas and was sent to the northernmost section of Iceland. He was the only American in a town with a population of 2000 to 2500.

At first, he found Iceland to be very depressing and forbidding but later came to appreciate both the country and its people. He learned the language, which is the original Nordic tongue, and studied the folklore and history of the area. Iceland was formed by a volcano and consists of one big mountain with very few trees and a jagged, rugged coastline.

The largest glacier in Europe covers one third of the

HINTS FROM Heloise

Dear Heloise:

Have you ever tried putting small slices of lemon, lime or maraschino cherries in your ice cube trays?

These attractive ice cubes give an added touch to fruit punch, lemonade, limeade, etc.

My children love them, especially during the holidays.

Ruby Petter

Dear Heloise:

I was trying to arrange some artificial flowers in a tall, clear glass vase.

The stems were too short, so I crushed some clear plastic bags and put them in the bottom of the vase.

They worked like a charm, and were hardly noticeable.

Mrs. Oscar Bodkin

John Lemmer PTA Meets On Monday

The John Lemmer PTA will meet Monday at 8 p. m. in the multi-purpose room of the school.

Room visitation will be held from 7:30 to 8 followed by the business meeting with president Mrs. Wesley Lehmann presiding.

The emphasis will be on "Dads" and fathers will count double in the room award.

Vernon Ihlenfeldt will be the main speaker and "The Overhead Project as an Educational Tool" will be the title of his talk.

Gift House certificates will be collected at the meeting. The PTA group is saving for a kitchen cart and all parents are reminded to obtain these certificates when they redeem their stamps.

Refreshments will be served following the program.

St. Anne's Social Club Elects Officers

St. Anne's Social Club elected new officers at their regular meeting held in the church hall last evening.

They are: Mrs. Carl Westberg, president; Mrs. Frank Rodman, first vice-president; Mrs. James Houle, second vice-president; Mrs. James Pascoe, third vice-president; Mrs. Ernest LaFave, recording secretary; Mrs. Guy Hurlman, financial secretary; Mrs. Emil Frappier, treasurer.

Mrs. Denham Lord, membership chairman; Mrs. William Erickson, publicity chairman; Mrs. James Pascoe, deanery chairman; Mrs. Chet Schram, sick committee chairman; Mrs. Walter Wickert, Mrs. Chet Schram and Mrs. Dale Weisert, auditors; Fr. Stephen Mayrand, spiritual advisor.

Pie dough left over? Roll it out and spread it with soft butter or margarine, then sprinkle generously with a mixture of sugar and cinnamon. Cut the pastry into squares and bake in a hot oven. Serve the pastry squares with iced tea.

Classified Ads Cost Little But Do A Big Job

Personals

Mr. and Mrs. Alex St. Cyr, 1523 8th Ave. S., have returned from Milwaukee after attending the funeral of a close relative, Mrs. Harry Bagley.

VFW Auxiliary Meeting Held

The Ladies Auxiliary to Hiawatha Post 2998 Veterans of Foreign Wars held a regular monthly meeting Monday night at the V. F. W. Hall. Membership application was received from Agnes Thelma.

During the business session donations were made to March of Dimes, V. F. W. National Home, and a needy family. Youth Activities Chairman, Ethel Monsen, reported 250 children were entertained by movies and presented gifts at the recent annual Christmas party sponsored by the Post and Auxiliary.

The Charter was draped for Mrs. Yvonne Nolden who passed away Dec. 14, 1966. Mrs. Carol McMahon received the attendance award.

Mrs. Harriet Larsen and her committee were in charge of the social hour with the Post.

Marcia Bartol Bride Of Samuel E. Heath

Red and white poinsettias adorned the altar of St. Rita's Church in Trenary on Satur- day, Dec. 24 for the wedding of Marcia Antoinette Bartol of Traunuk and Samuel Edward Heath of Iron Mountain.

Rev. Michael F. Hale officiated at the ceremony and providing traditional organ music was Elaine Anderson, a college roommate of the bride.

The bride is the daughter of Mr. and Mrs. Frank J. Bartol of Traunuk and the bridegroom is the son of Carmela El-Khoury and Jack Heath, both of Los Angeles, Calif.

Alencon Lace

The bride, given in marriage by her father, wore a floor length gown of re-embroidered Alencon lace over bouquet taffeta styled with a shallow scoop neckline trimmed with sequins and pearls, long sleeves and a slim skirt accented with a detachable court train.

Matron of honor for her cousin was Mrs. Timothy O'Reilly of Chicago and she was attired in a dark green velvet street length dress and a matching velvet double bow headpiece.

Serving as bestman was James Khoury of Iron Mountain and seating the guests were Robert A. Debelak of Trenary and Daniel Khoury of Iron Mountain.

Mrs. Samuel Heath

Kathleen Hubred, Richard Scholtz Exchange Vows

MILWAUKEE—Miss Kathleen Hubred wore white and her attendants, green, for her recent wedding to Richard Scholtz at St. Luke's Church in Milwaukee. The Rev. Kaiser officiated at the 4:30 p. m. double ring ceremony and music was provided by Bruce Pomahac at the organ and the soloist, Mickey Rothe.

The daughter of Mr. and Mrs. Edmund Hubred, 1646 Madison Ave., chose a traditional bridal gown of lace and satin. The long sleeved fitted lace bodice topped a matching tiered lace skirt with sweep overskirt and chapel train. Her shoulder length veil was caught in a crystal and pearl headpiece. To complete her ensemble, she carried a family heirloom prayerbook with white mums.

Miss Colleen Hubred served as her sister's maid of honor and a cousin Miss Cheryl Rothe, was bridesmaid. They were identical empire style ensembles. The green floral brocade bodices topped skirts of green grosgrain. Their green satin headpieces were trimmed with pearls and they carried bouquets of yellow and gold mums.

The brother of the bridegroom, John Scholtz, was bestman. They are the sons of Mr. and Mrs. Arthur Scholtz of Hermansville. Glen Bartczak was the groomsmen. Ushering duties were performed by Harlan Hubred, brother of the bride, and Jack Scholtz, brother of the bridegroom.

A wedding reception for 400 guests was held following the ceremony.

Mr. and Mrs. Scholtz honeymooned in the Dakotas for two weeks and are now living at 4909 S. Nicholson Ave., Cudahy, Wis. The bride is employed by an insurance company and Scholtz works for an industrial firm in Milwaukee.

Prior to the wedding, the bride was entertained at three showers. The first was given by Mrs. Mary Lomasi, Mrs. Arthur Scholtz and Miss Dorothy Scholtz; the second by Mrs. Albert Klein, Mrs. Norman Rothe, Mrs. Arthur Rothe and Mrs. Joseph Gaworski; and the third by Miss Jan Yaeger, Miss Priscilla Woytal and Mrs. Lawrence Laudwehr.

Escanaba B.&P.W. Club Enjoys Talk On Iceland

Iceland was the subject of the informative and descriptive talk given by Keith Towns to the Escanaba Business and Professional Women's Club when they met Tuesday evening at the Sherman Hotel for their regular dinner meeting.

Towns, who is now an electrical contractor and co-owner of the Rapid Electric Sales and Service, spent 4½ years in Iceland during WW 2 while serving with the armed forces. In February 1942, he was selected to serve with the first Central Intelligence Agency group to be formed overseas and was sent to the northernmost section of Iceland. He was the only American in a town with a population of 2000 to 2500.

At first, he found Iceland to be very depressing and forbidding but later came to appreciate both the country and its people. He learned the language, which is the original Nordic tongue, and studied the folklore and history of the area. Iceland was formed by a volcano and consists of one big mountain with very few trees and a jagged, rugged coastline.

The largest glacier in Europe covers one third of the island and no one lives in the interior. Towns stated that the temperature is warmer than that of New York City. The world's oldest democracy, Iceland celebrated its 1000th anniversary in 1930 and was presented a statue of Leif Ericson from the United States in commemoration of the event.

The people of Iceland are well educated with a love of music and art. Every home has a library and there are 230 newspapers published for a population of 120,000. Described by Towns as nice people to know, he stated they love their country, are peace-loving and extremely honest. Where women outnumber the men and about 25 per cent of the women have no possibility of marriage, husbands are highly valued and are the supreme rulers in their homes. The main source of food and income is the fishing industry and Iceland is the herring center of the world.

A wide contrast in climate, terrain and people was demonstrated, when Towns concluded his program with a presentation of color slides taken in Mexico recently. Among them were pictures of the recently discovered pyramids and other points of interest, also a sequence of pictures showing the action at a bull fight from start to kill.

Towns was introduced by Mrs. Norma O'Brien of the membership committee which was in charge of the meeting. Others members of the committee are Estella Erickson, Leona Dougherty and Pearl Witte. Guests attending were Mrs. Towns and Mrs. White.

St. Anne's Social Club Elects Officers

St. Anne's Social Club elected new officers at their regular meeting held in the church hall last evening.

They are; Mrs. Carl Westberg, president; Mrs. Frank Rodman, first vice-president; Mrs. James Houle, second vice-president; Mrs. James Pascoe, third vice-president; Mrs. Ernest LaFave, recording secretary; Mrs. Guy Hurkman, financial secretary; Mrs. Emil Frappier, treasurer.

Mrs. Denham Lord, membership chairman; Mrs. William Erickson, publicity chairman; Mrs. James Pascoe, deanery chairman; Mrs. Chet Schram, sick committee chairman; Mrs. Walter Wickert, Mrs. Chet Schram and Mrs. Dale Weissert, auditors; Fr. Stephen Mayrand, spiritual advisor.

Personals

Mr. and Mrs. Alex St. Cyr, 1523 8th Ave. S., have returned from Milwaukee after attending the funeral of a close relative, Mrs. Harry Bagley.

VFW Auxiliary Meeting Held

The Ladies Auxiliary to Hiawatha Post 2988 Veterans of Foreign Wars held a regular monthly meeting Monday night at the V. F. W. Hall. Membership application was received from Agnes Thernal.

During the business session donations were made to March of Dimes, V. F. W. National Home, and a needy family. Youth Activities Chairman, Ethel Monsen, reported 250 children were entertained by movies and presented gifts at the recent annual Christmas party sponsored by the Post and Auxiliary.

The Charter was draped for Mrs. Yvonne Nolden who passed away Dec. 14, 1966. Mrs. Carol McMahon received the attendance award.

Mrs. Harriet Larsen and her committee were in charge of the social hour with the Post.

St. Joseph PTA Meeting Held

The January meeting of St. Joseph's P. T. A. was held Wednesday in the school cafeteria John Sankovitch, president, conducted the meeting.

Sister M. Cleomine spoke briefly on the Remedial Reading Program for junior high students being organized for the second semester of this school year.

An interesting program was presented by Roger Johnson, of the U. S. Forestry Service, who showed slides and spoke on educational programs of the Job Corps. Johnson served as director of Blackwell Job Corps Center in Laona, Wis.

Refreshments were served by third grade mothers.

Church Events

First Presbyterian

Friday, Jan. 13, 4:30 p. m.—

First meeting of the communicants class.

Central Evening Circle Meets

The Central Methodist Evening Circle held its monthly meeting Monday evening at the church. Dinner was served by the Suzanna group.

Following dinner revotions were held in the chapel led by Mildred Gunderson. She also gave a talk entitled, "Happiness." Devotions closed with the singing of the hymn, "Happy the Home When God Is There," followed by prayer.

Mrs. Ben Sandefur gave a talk on her experience in Indonesia and also showed colored slides. She also displayed a group of arts and crafts from that country.

John Lemmer PTA Meets On Monday

The John Lemmer PTA will meet Monday at 8 p. m. in the multi-purpose room of the school.

Room visitation will be held from 7:30 to 8 followed by the business meeting with president Mrs. Wesley Lehmann presiding.

The emphasis will be on "Dads" and fathers will count double in the room award.

Vernon Ihlenfeldt will be the main speaker and "The Overhead Project as an Educational Tool" will be the title of his talk.

Gift House certificates will be collected at the meeting. The PTA group is saving for a kitchen cart and all parents are reminded to obtain these certificates when they redeem their stamps.

Refreshments will be served following the program.

HINTS FROM Heloise

Dear Heloise:

Have you ever tried putting small slices of lemon, lime or maraschino cherries in your ice cube trays?

These attractive ice cubes give an added touch to fruit punch, lemonnade, limeade, etc.

My children love them, especially during the holidays.

Ruby Pettet

★ ★ ★

Dear Heloise:

I was trying to arrange some artificial flowers in a tall, clear glass vase.

The stems were too short, so I crushed some clear plastic bags and put them in the bottom of the vase.

They worked like a charm, and were hardly noticeable.

State Spending Rides On Reform

(Continued from Page 1)

between state and local government.

The governor said the state needs an urban cooperation act permitting local governments to make agreements based on a joint exercise of powers.

He said he would recommend amendments "necessary to implement housing relocation legislation passed in the last session."

Education Boost

"Because of its fundamental importance to the well-being of our state, education will receive the major share of the increase to be recommended in my forthcoming budget," Romney said.

He recommended an increase in the mental health program for further support of community services as well as continued improvements in state hospitals.

In the field of civil rights, Romney said Michigan has one of the nation's outstanding programs.

However, he called for a "substantial budget increase to strengthen the State Civil Rights Commission," and stepped-up action by local governments.

Crime Fight

Describing crime as "one of our most alarming problems," Romney said "an outstanding commission on crime, delinquency, and criminal administration is now reviewing the entire problem and should produce long-range recommendations this year."

Stocks In 3rd Busiest Day

NEW YORK (AP) — That was a day Wall Street won't soon forget: A sharp loss, an equally dramatic gain and the second heaviest trading since 1929.

These were the vagaries of the stock market Wednesday, following President Johnson's request, in the State of the Union address to Congress, for a 6 per cent surcharge on income taxes.

The market reacted by falling off 11.47 points to 802.67 in the first half-hour of trading Wednesday. But "bargain hunters" jumped in and a rally began. The drop was recovered by early afternoon.

When the National City Bank of Minneapolis announced later it was cutting its prime interest rate from 6 to 5 1/2 per cent — indicative of loosening credit conditions — the news spurred trading to a strong recovery, closing with a gain of 8.35 points to 822.40.

The average price per share of all common stocks on the New York Stock Exchange bounded from a morning loss of 59 cents to a closing gain of 38 cents.

Stock market volume soared to 13.24 million shares, third heaviest in history. The two heaviest days were 14.7 million shares traded May 29, 1962, and 16.4 million shares on Oct. 29, 1929. Tuesday's volume was 8.12 million shares.

Crime Control Aid Is Praised

NEW YORK (AP) — President Johnson's promise of big-scale federal aid for states and cities in the fight against crime won plaudits from coast to coast today.

Many municipal officials said transfusions from the Treasury are the only answer to the rising cost of law enforcement.

Others declared that crime is a national problem and that Congress has an obligation to provide funds to help keep it in check.

A typical comment came from Police Commissioner Ray Girardin of Detroit, who said: "We have reached the point where the cities cannot adequately finance all police services that cities should have. I hope Congress will implement the program by making funds available."

Turning to labor, Romney recommended the Labor Department be given authority to enact codes, rules and regulations on industrial safety and that the agricultural labor commission be made statutory within the department.

He recommended further increases in the state minimum wage and said legislative action may be necessary to deal with existing statutes on collective bargaining by public employees.

Romney presented four recommendations regarding traffic safety:

1. Enactment of legislation to qualify Michigan under the federal Highway Safety Act including authority to the governor for coordination of the program and allocation of funds for local traffic safety programs.

2. Mandatory motor vehicle inspection.

3. Implied consent for chemical tests of drinking drivers.

4. Strengthened and centralized driver licensing and examination.

He also called for action to remove local government veto power over interstate freeway construction routes.

He called for a "sound veteran's homestead tax exemption program" with legislation to eliminate "the injustice and deficiencies in the present law, particularly for those with the greatest disability."

In another favorite area, Romney called for legislation and substantial appropriations to allow state and local government to make "an adequate attack on water pollution on a statewide basis."

He stressed a need for reorganization of the state's military establishment and asked for an updating of state food, drug and cosmetic laws.

He also urged action to keep Michigan's time schedule from being changed from year-around Eastern Standard Time as it would be under federal law unless the Legislature takes action before April 1.

Lake Michigan Searched For Missing Plane

BENTON HARBOR (AP) — The Michigan and Wisconsin Civil Air Patrols and the Coast Guard today launched a search for a single-engine plane and its pilot reported missing over Lake Michigan on a flight from Sheboygan, Wis., to Benton Harbor.

Edward Dwan, 46, a Benton Harbor businessman, reportedly took off from Sheboygan Wednesday 5:30 p.m. EST. He was to have made a radio check with the Muskegon tower at 6:15 p.m. but never did.

The 185-mile trip from Sheboygan to Benton Harbor normally takes 90 minutes. Dwan was reported to have taken off with enough fuel for 3 1/2 hours.

A friend of Dwan, Don Leitow of Richmond, said he and Dwan flew to Sheboygan Wednesday in a plane they jointly owned. Dwan was to pick up a newly purchased Swift.

WILLIAM MCCROCY of Marcellus surprised fishermen when he appeared on the ice at Cedar Lake near Marcellus with a power mower cutting down bullrushes. McCrocy said that low water levels over the past few years built up weed banks in front of his cottage. (AP Wirephoto)

44 Billion Miles

LANSING (AP) — An estimated 44.1 billion miles were driven on Michigan's state highways, county roads and city streets last year, reports the State

Highway Department.

This was a 6.1 per cent increase over the 41.6 billion miles driven in the state in 1965. The total was up 32 per cent from the 33.3 billion miles recorded in 1961.

Man Dies In Inkster Holdup

INKSTER (AP) — A gunman today sprayed at least five shots at two dozen patrons of a bar in this Detroit suburb, killing one man and critically injuring another.

The gunman and an accomplice escaped after robbing the bar of \$1,200 to \$1,500 in cash.

Richard Humphrey, deputy chief of Inkster police, said accounts of the shooting at the Skylark Bar on Michigan Avenue were confusing.

He said, however, one of the two men opened fire in an apparent attempt to discourage anyone from following them.

The two had been drinking at the bar for about an hour and pulled guns when the bartender announced closing time at 2 a. m., police said.

Science Grant

MARQUETTE (AP) — A National Science Foundation grant of \$39,640 has been awarded Northern Michigan University for an eight-week summer institute in geometry.

News In Brief

ANN ARBOR — Dr. John C. Pollard, a psychiatrist at the University of Michigan Mental Health Research Institute, said LSD sold on the U-M campus is made in New York and profits are used to finance stop the war and "Ban the Bomb" organizations. The drug controversial hallucinatory drug is sold on the black market in Ann Arbor for \$5 a capsule, he said.

ROME — Italian newspaper said today, reports that Sophia Loren had suffered a miscarriage are unwarranted, but the condition of the actress still causes concern.

WASHINGTON — Celebrities at Sen. Everett M. Dirksen's 71st birthday party Wednesday night included Vice President Humphrey and Richard Nixon.

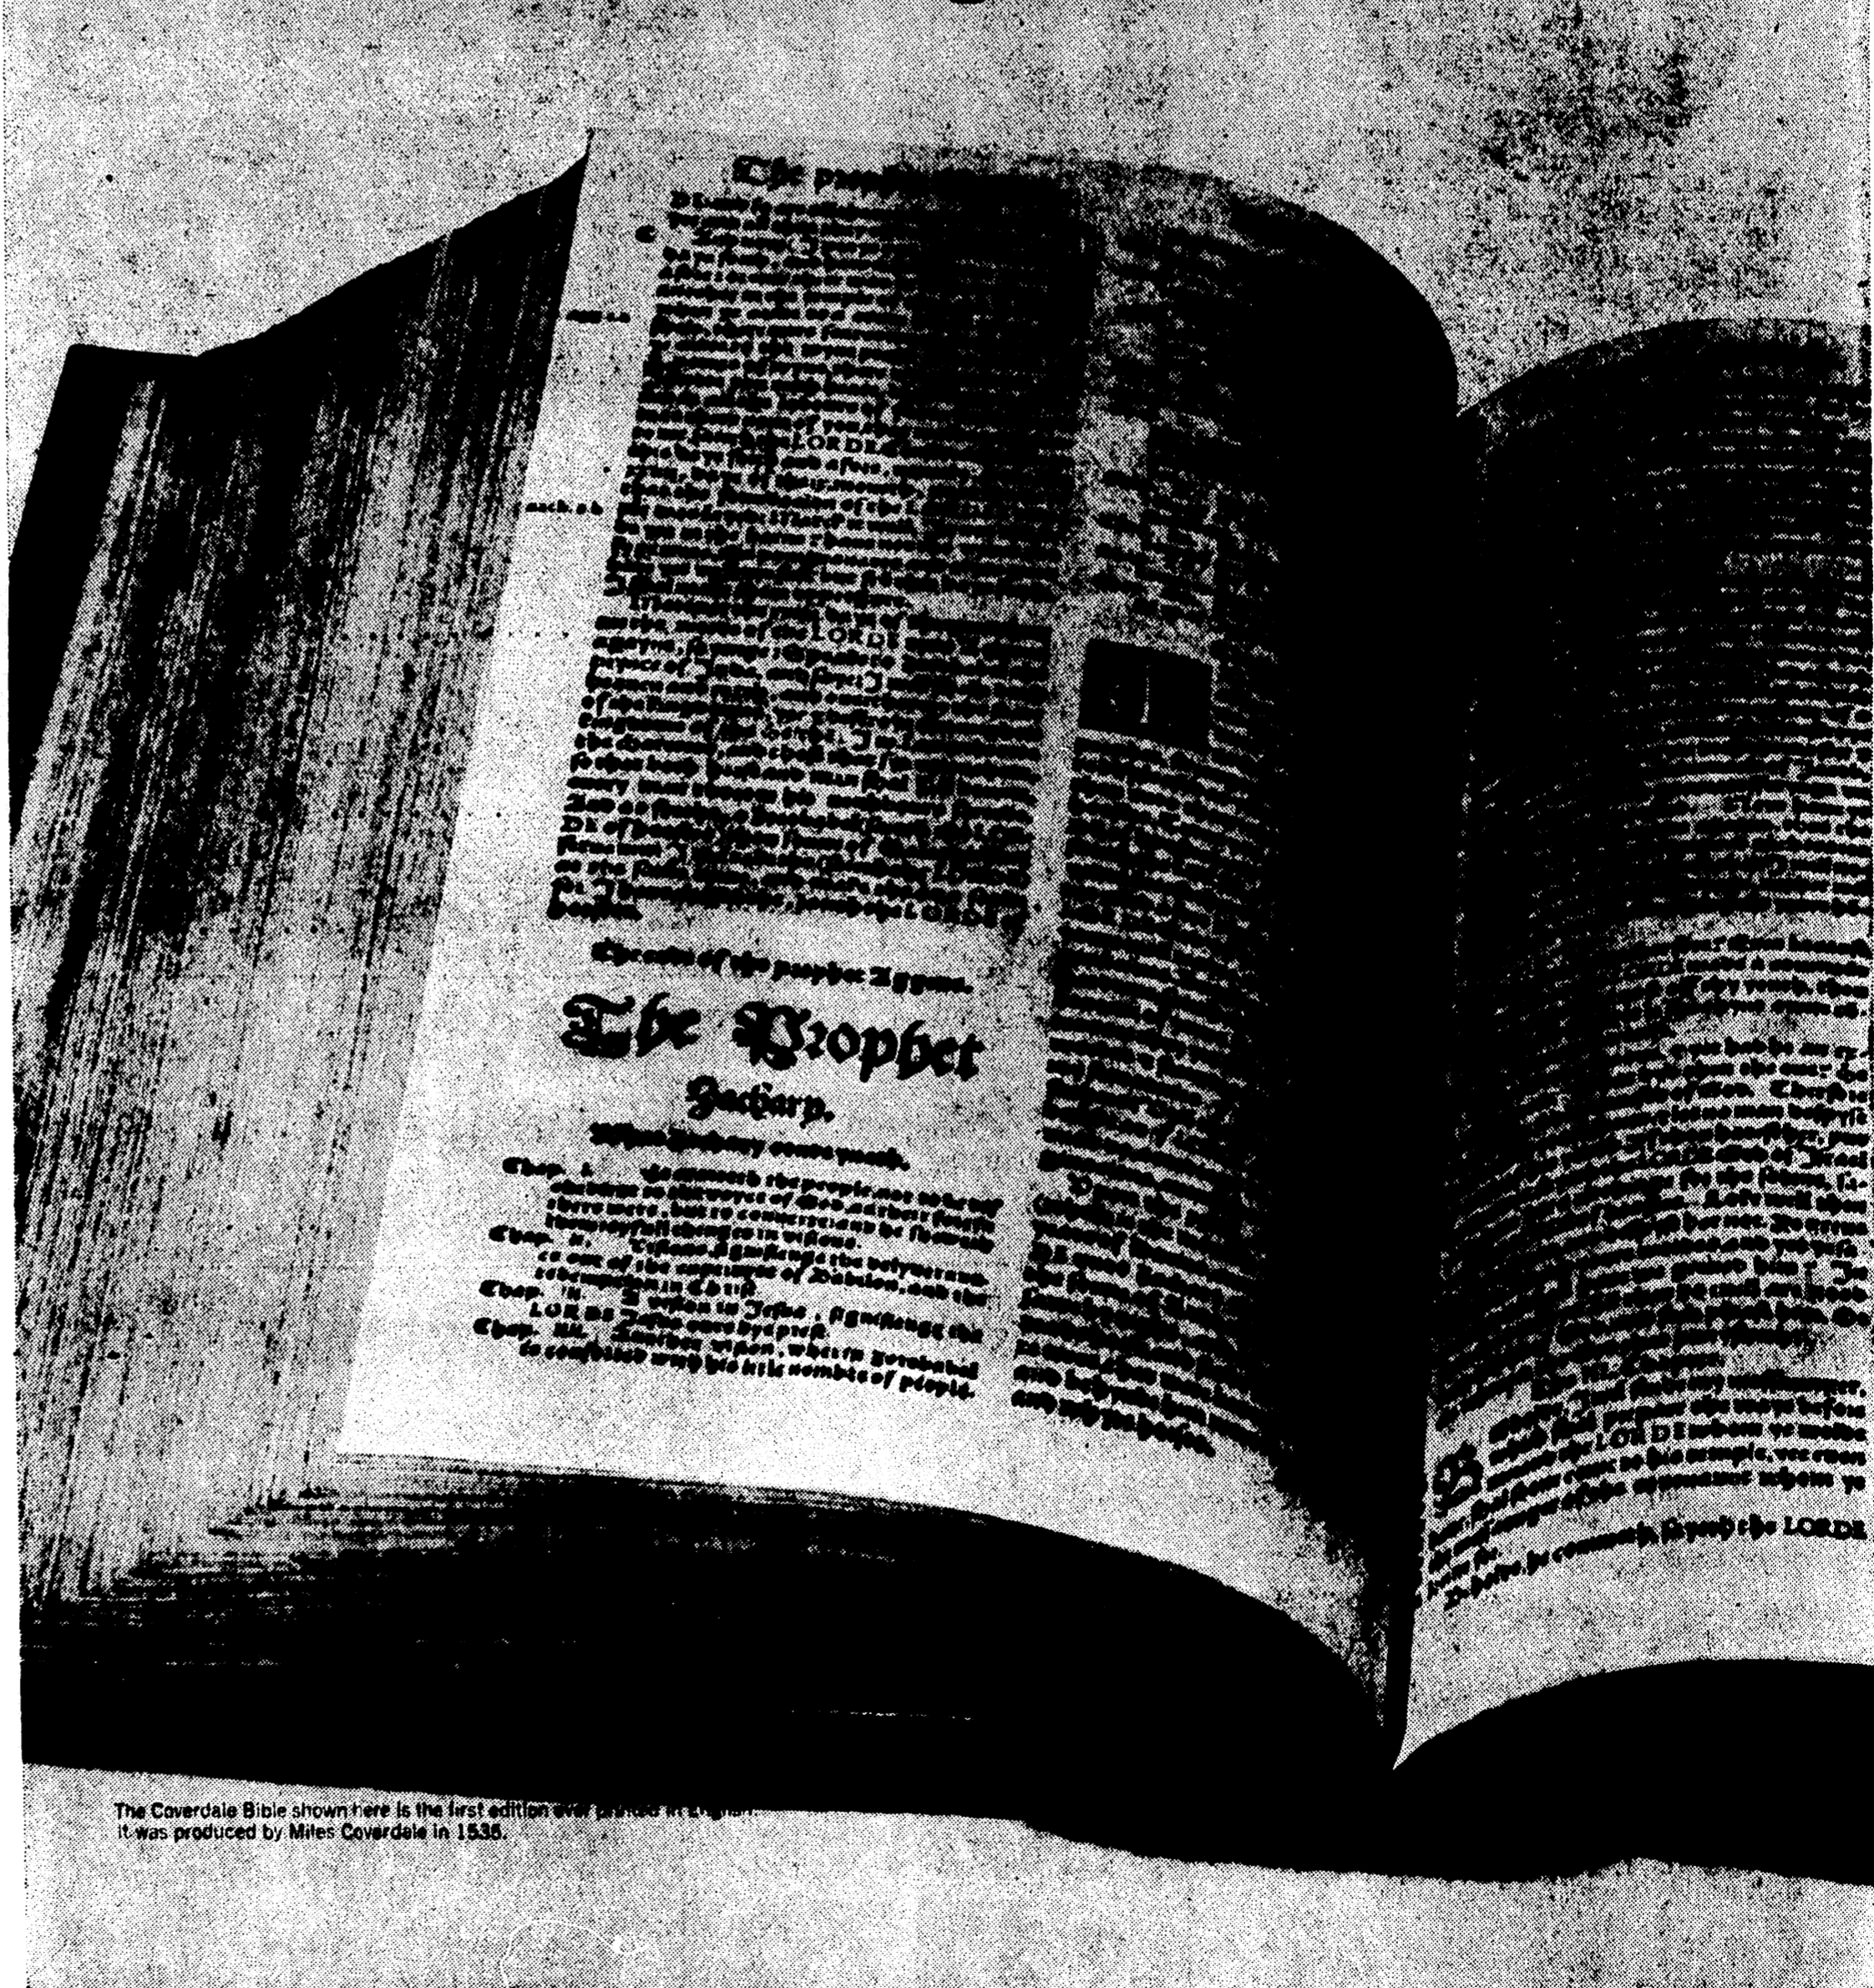

BOSTON — Sen. Edward Kennedy's wife, Joan, is reportedly expecting her third child in June, the Boston Globe said.

MIAMI, Fla. — Brown haired June Clark, 19, whose once constant sneezing brought advice from all over the nation, is now feeling fine. She still sneezes, she said, but only lightly every half hour instead of every four minutes as she did for 150 days. Her sneezing was controlled by rigging a device which gave her an electric shock, each time she sneezed.

SAIGON, South Vietnam — Gen. Earle C. Wheeler, chairman of the U.S. Joint Chiefs of Staff, said that U.S. Vietnam strategy in 1967 will be one of "keeping the pressure on the enemy and maintaining the initiative we seized a year ago."

CLASSIFIED ADS

It's a never-ending source of news.

The Coverdale Bible shown here is the first edition ever printed in English. It was produced by Miles Coverdale in 1535.

Although religion is the oldest continuing story in the history of mankind, it's still one of the biggest. Especially today. Sweeping changes are taking place in every region of the religious world, and they affect almost every member of our community.

To keep track of all these developments is a big job for an expert reporter, and fortu-

nately, we have just the man for the job: George Cornell, religion writer for The Associated Press and author of the weekly column, "Religion Today."

In his 15 years of covering religion, Cornell has won the reputation of being among the most knowledgeable writers on the scene. He's also won almost every important award,

including a James O. Supple Memorial Award given to the outstanding religion writer of the year by all the other writers in the field.

As a member of The Associated Press, we count on George Cornell to get us the whole story. As a reader of this newspaper, you can count on us to get it to you — fully, factually, and above all, fairly.

TWIN FUN at Milan, Italy, had two sisters blending the traditional and the modern in fashion at the famous La Scala opera house during opening night festivities. Margherita Feraboli, right, wears a "minishorts" evening outfit, while her sister Rosana sports the more traditional evening dress.

Dept. Merger Causes Dismay

WASHINGTON (AP) — President Johnson's proposal to merge the Commerce and Labor departments is a major surprise — and probably unwelcome — to both industry and organized labor.

"It's unworkable," said one union spokesman. "Labor and business are two basically opposing forces which need the government, not as a combining force, but as a mediating force."

"The business community is astonished," said Arch N. Booth, executive vice president of the U.S. Chamber of Commerce. "Offhand, the proposal appears to be contrary to the best interests of the country."

There was speculation that the proposal is intended to remove the union label from the rapidly expanding manpower and job-training programs in the Labor Department — programs in which Johnson hopes to encourage private industry's cooperation and support.

McMillan

Wedding
On Saturday afternoon Dec. 31, Karen LaLonde of Manistique and George Braley of McMillan were united in marriage at the home of his grandparents, Mr. and Mrs. William Blankinship with Emerson Smith and Geraldine Braley as their only attendants. Justice of the Peace, Frank Whitmarsh performed the ceremony. Those attending were, Mr. and Mrs. William Blankinship, Mr. and Mrs. George Blankinship, Mr. and Mrs. Vern Pedrin, Mrs. William Leech and daughters, Janice and Linda.

Briefs
Jonathan Sanborn left Sunday afternoon for Lansing where he will spend a month with Mr. and Mrs. John Sanborn.

A2C Emerson Smith left on Monday evening for his base at Cannon Air Force Base, Clovis, N. M., after spending a furlough with his parents, Mr. and Mrs. Emerson Smith Sr.

Mr. and Mrs. Frank Kirby, Mr. Grette Snyder and Gordon were business callers in Marquette on Friday.

Mr. and Mrs. Dick Brown and boys, and Delbert Taylor arrived here on Friday evening from Columbiaville.

Mr. and Mrs. Charles Bond and girls spent New Year's with her mother, Mrs. Evelyn Sampsell.

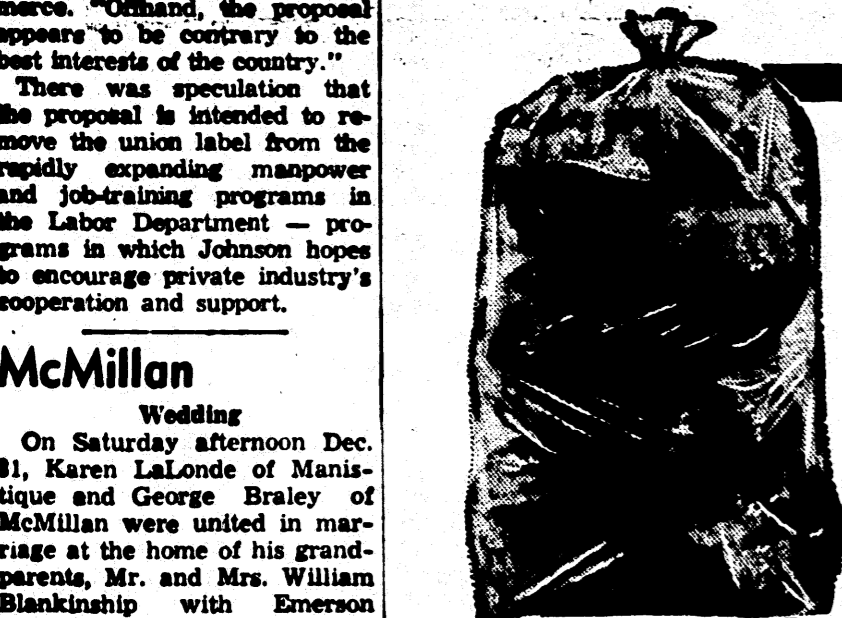

Miss Judy Sampsell left Monday for Ann Arbor where she is employed at the University of Michigan after having spent the weekend with her mother, Mrs. Evelyn Sampsell and other relatives.

Mrs. Frank Kirby and Mrs. Grette Snyder were callers in Newberry on Tuesday morning.

Debbie Harkness visited over the weekend with her grandparents, Mr. and Mrs. Willard Harkness in Lakefield.

Mr. and Mrs. William Sampsell left on Monday for their home in Ferndale after spending the New Year's weekend with his mother, Mrs. Evelyn Sampsell and other relatives.

Roger Smith recently had a boating accident in Bermuda—350 feet above sea level! Smith was building a cruiser in his hillside yard when he fell overboard, injuring a leg.

Gladstone News

First National Reelects Staff

The annual meeting of Shareholders and Directors of the First National Bank, Gladstone, was held Tuesday at the Bank. The directors reported business being good for the past year.

The following directors were re-elected by the shareholders: Loyal W. Hanson, Loyal E. Hanson, George E. Kelly, Eugene H. Noblet and Stanley R. Venne.

Loyal W. Hanson was re-elected president by the directors and the remaining officers were also re-elected. They are William J. Norcus, executive vice president; Eugene H. Noblet, vice president; Thomas I. Davis, cashier, and Miss Elaine Pokensky, assistant cashier and auditor.

Rock

Band Boosters

The Rock Band Boosters met at the school Tuesday evening to make final plans for a fund raising activity to be held Saturday at the Rock Lions clubhouse starting at 8 p.m. Party games and card playing will be the main activities, with lunch served afterward by band member mothers. Parents, young people and all interested persons are invited.

During the meeting Tuesday evening, the color for the blazers and berets was decided. Blue Blazers with white skirts and trousers was favored. The Band Boosters Club will purchase the blazers and berets, and parents will furnish the skirts and trousers. More information will be sent home with band members at a later date. There are 46 members in the band.

4-H Meeting

The Rock 4-H meeting for January was canceled because of semester exams and other activities. The next regular meeting will be Feb. 6.

Obituary

Word had been received that Alfred Gatschene, husband of the former Mrs. Amanda LaBranche, formerly of Rock, died New Year's Eve in Ann Arbor Hospital. They were residents of Garden City. Mrs. Gatschene is a sister to the late Frank Trombly.

Camp Century, a United States Army Post in Greenland, was built 30 feet beneath the snow. To keep the tunnels clear, 40 tons of ice must be shaved away from them each week.

RIALTO

Cared for by CARE

Happiness is a portion of CARE rice for a toddler whose home in Saigon's Vinh Hoi district was destroyed by fire.

Soap is almost as vital as food. The bathing place may be only a muddy river, but the result can be an almost magical clearing up of sores and skin irritations.

War has brought misery to Viet Nam and the perils of battle are only a part of it. Millions have been uprooted from their homes to seek food and shelter where they can find it. Natural disaster—floods and flash fires—can make their needs even more pressing. On hand to help in Viet Nam, as it has been in scores of troubled nations around the world for two decades, is CARE. And as always, the most poignant beneficiaries of the non-profit agency's efforts are the children.

Another fire victim, left, takes home a textile package providing needles, thread and fabric to clothe a family of five. A sackful of rice, right, will keep this boy's family alive as they rebuild their home.

And there are needs for the long-term welfare of Viet Nam's children—books and school supplies that parents often cannot afford.

Mid-Winter Conference Jan. 20-22

Legion Picks Gladstone

Commander Schuitema

Weather Station, Language Tapes Gifts To School

A new weather station and right hand bank of tapes for the language laboratory will be added to the instructional materials at Gladstone high school, Supt. Wallace Cameron announced.

Both purchases were made possible by anonymous gifts to the school system which have been accepted by the Board of Education.

The weather station, Cameron said, will be installed in the hall of the high school to allow all students to observe and learn. A weather station was installed in the new building at construction time, he added, and the new equipment will allow measurement of inside and outside temperature, atmospheric pressure, rainfall, wind and humidity.

The earth science class taught by Carl Backstrom will be in charge of the station. It is expected to be ready by Jan. 15.

The Department of Michigan American Legion top officials will come to Gladstone as guests of August Mattson Post No. 71 on their annual midwinter tour of the Upper Peninsula on Jan. 20-22. The stop at Gladstone, where the officials will be at the Gladstone Motel, will be the only one in Delta County.

The tour will begin in Newberry Saturday, Jan. 14 and wind up in Gladstone, where the last three days will be devoted to the mid-winter conference of the Upper Peninsula Association of American Legion Posts and Auxiliary units.

Criminal, Traffic Activity On Rise

State Police activity at the Gladstone Post showed a sharp increase in 1966, according to figures tabulated by Sgt. Wilbert Treichel, post commander.

Arrests by Troopers at Gladstone, both criminal and traffic, jumped from 1,445 in 1965 to 1,720 last year, a 19 percent increase.

Complaints investigated by the post rose about 15 percent from 1,603 in 1965 to 1,839 last year.

"It seems criminal activity increased along with traffic," said Treichel. "Everything in general seems to have increased."

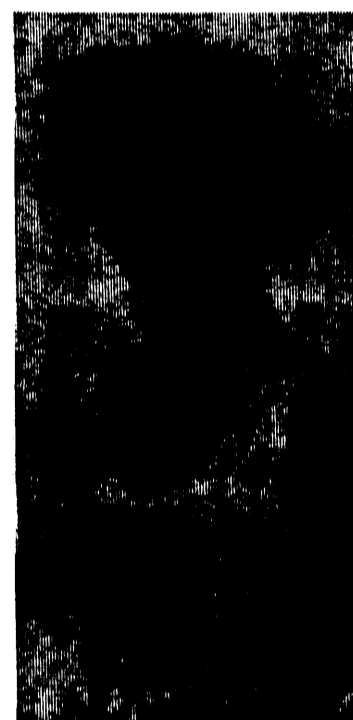

Complaints ranged from murder and bank robbery to numerous breaking and entering reports. "I don't know what to attribute the rise to," he continued. "Maybe transportation has something to do with it."

Treichel pointed out that Delta County is a crossroads with major highways US-2, US-41 and M-35 all running through the county. He said with the economy going good, people have greater access to automobiles and consequently are more mobile.

Some of the increase may be due to new state laws requiring motorists to carry insurance or be enrolled in the State's uninsured motorist pool. Troopers issued for the first time this year tickets to drivers not having proof of insurance.

The other stops on the tour are Marquette, Sunday, Jan. 15, with a luncheon stop at Munising on the way; Lake Linden, Monday, Jan. 16; Ironwood, Tuesday, Jan. 17; Stambaugh, Wednesday, Jan. 18; Menominee, Thursday, Jan. 19 with a side trip to the Veterans Hospital at Iron Mountain on the way to Menominee.

Heading the tour party will be State Commander Edwin J. Schuitema, and State Auxiliary President Mrs. John (Orlene) Penning, and Thomas A. Lourie, state adjutant.

Mrs. Penning

Pancake Supper Is Sponsored By Gladstone Rotary

The Gladstone Rotary Club is sponsoring a pancake supper, to be served at the James T. Jones School the evening of Tuesday, Jan. 17.

The public is invited to the supper where pancakes with all the trimmings will be served starting at 5 o'clock.

Tickets will be sold and the proceeds will be used by the Rotary Club to finance its community service projects.

Troopers Get More Training

EAST LANSING (AP)—Forty State Police troopers from 29 posts will attend five weeks of advanced training at the East Lansing headquarters beginning Jan. 23, State Police said here.

The troopers are graduates of recruit schools held in March, May and July of last year.

Thompson Serves Again In Moscow

MOSCOW (AP)—Llewellyn E. Thompson has arrived to serve again as U.S. ambassador. He told newsmen he carried a message from President Johnson to Soviet leaders.

Thompson is one of the U.S. government's top experts on Soviet affairs. He was ambassador here from 1967 to 1962.

Thompson said he did not want to discuss the contents of Johnson's message.

Johnson said Tuesday night the United States wants to end the cold war with the Soviet Union.

Upper Bay Is Offering Perch

A new access site constructed last summer on the west side of the West Gladstone Bridge on the Escanaba River is now in use. This area contains some nice northern and several have been taken recently.

Upper Bay de Noc above Gladstone should produce some northern in the Butler Island area and perch elsewhere.

A few northern in the 20-24-inch class have been taken from AuTrain and 16-Mile lakes, both by spear and tip-ups with minnows or smelt as bait. A few perch are being taken from AuTrain Basin by hook and line using worms, grubs or wax worms.

Recent heavy snows have adversely affected Upper Peninsula outland travel conditions and have created much slush and water on ice surfaces in some areas. It continues desirable to exercise caution when traveling on ice as heavy snow is not conducive to ideal ice-making conditions, says the Conservation Department in the Escanaba District.

In This Corner

with Roy Crandall

Rolle Dotsch, head football coach at Northern Michigan University, was recruiting in the Escanaba area last weekend in spite of the adverse weather conditions. . . . The former Michigan State lineman and ex-Esky grid mentor is extremely high on Dan Scheuren, the 215 pound Eskymo defensive tackle of last fall who is currently an undefeated heavyweight on Coach Jim Hirm's wrestling squad. . . . Bob Brisco, rugged Holy Name halfback, is also highly regarded by the Northern coach.

Jim Clairmont, the former star Escanaba athlete, had an extremely successful fall at Southern Illinois where he transferred after a year at West Point. . . . Clairmont, a power-running 225 pound fullback, was red-shirted by new coach Ellis Rainsberger during the 1966 season and therefore will be a sophomore in eligibility next fall. . . . The Saluki coaching staff is counting on Clairmont for the varsity fullback post in 1967.

Another former Eskymo athlete off to an impressive collegiate football start last fall was Steve Oman. . . . A freshman at Illinois, Oman saw regular duty as an offensive guard and the Illinois coaches figure he'll make the traveling squad with their varsity team next fall. . . . Oman will be working to stack another 10 pounds on his rugged 215 pound frame.

Jim Uecke, former Menominee High School basketball ace, is the second leading scorer on the Carthage College freshman cage team that is undefeated in four games this season. . . . Uecke, who earned All-U.P. and all-state honors at Menominee last year, is averaging 15 points a game and the team is averaging 100.7 per cent.

When the Northern Michigan Wildcats took on Central Michigan early this week, Coach Stan Albeck was fielding his crew without the services of four squad members who were bounced for disciplinary reasons. . . . Con Yagodzinski was one of four players in the Central game who went the entire 40 minutes without relief because of lack of a bench. . . . Yago came through with 10 points and 11 rebounds as the 'Cats bowed by a 69-64 margin.

Lions Need Pride

Schmidt Signs, Plans To Make Several Trades

DETROIT (AP) — Joe Schmidt, the new coach of the Detroit Lions, says he'll try to start the club back to National Football League power with a number of trades and a massive injection of pride.

"I definitely feel we have to make some trades," he said after signing Wednesday. "I have a free hand. I can do anything in the line of trades. Naturally," he added, "I won't go off half cocked. I'll confer with General Manager Russ Thomas

Super Bowl No Sellout

LOS ANGELES (AP) — Kansas City and Green Bay will both show up for Sunday's Super Bowl game, but the anticipated sellout crowd probably will not. "I thought we would have a sellout and we might still have it," said Commissioner Pete Rozelle Wednesday. "But it would be hard to get a sellout at this point."

Rozelle said that some 55,000 to 60,000 seats have been sold for the game, leaving more than 30,000 seats to go in order to fill the 93,000-seat Los Angeles Coliseum.

Rozelle pointed to the blackout backlash — the game will not be televised in the Los Angeles area and a suit was brought to force the lifting of the blackout — and the price scale of \$6, \$10 and \$12 as two of the factors cutting into the sale of tickets.

Rozelle also revealed that the Super Bowl winner would meet the College All-Stars in Chicago in August and announced record attendance figures for both the NFL and AFL.

NFL attendance rose to 5,337, 138 compared to 4,624,021 in 1965 while AFL attendance climbed from 1,782,384 to 2,160,369.

Louisville Pared From Unbeaten Cage List By Southern Illinois

By The Associated Press
Southern Illinois is not considered a major college basketball power. Convince Texas Western and Louisville.

The Salukis from Carbondale, Ill., 59-54 conquerors of Texas Western, the defending major college champion, upended previously unbeaten Louisville 53-50 Wednesday night.

Southern Illinois has a higher national ranking than either Texas Western or Louisville, but there is a difference — the Salukis top The Associated Press small college rankings while Louisville is No. 2 and Texas Western sixth among the major schools.

As for rankings, Coach Jack Hartman of Southern Illinois said after the latest victory, "They don't put anything on the scoreboard."

Well, they do put the score on it, and because Walt Frazier made five foul shots in the last 66 seconds, Wednesday night it was the right kind of score for the eighth time in 10 games this season for the Salukis. Their only losses have been to Southern Methodist 66-64 and to Louisville 70-66 in overtime.

The only other member of the major college Top Ten to see action Wednesday night was North Carolina, and the Tar Heels came from eight points behind in the second half to top North Carolina State 79-76 for

*Non-conference games

The Holy Name Crusaders helped cement Escanaba's position atop the Great Northern basketball ladder when they knocked off Menominee, 60-57, this week.

The upset left Esky a full game and a half in front of the Maroons in the current standings, released by league statistician Ken Peterson today. Escanaba is 4-0 with four more conference games remaining. Menominee is 3-2 with four to go.

The victory vaulted Holy Name into a tie for third place with Iron Mountain. Both teams carry 2-2 records.

Comets Cop 9th In Row

PERKINS — Trenary started repeating itself Wednesday night as the Comets claimed their ninth straight basketball victory of the season.

The Comets beat Perkins, 80-66, for the second time this season. The first score was 94-71 for Coach Steve Ellis' cagers.

Aside from a makeup game with Republic and a Jan. 17 non-league tilt with National Mine, Trenary has a steady diet of Central League foes remaining. The Comets must get by Eben, Cooks, Nahma, Rock, Rapid River, Garden and Bark River to clinch the league crown. Rock is right on Trenary's heels in the race and the league championship will likely revolve on the meeting between the teams at Trenary Feb. 7.

Trenary broke from a 15-12 lead in the first quarter to spread the gap to 41-30 at the

intermission. Coach Verne Nelson's Perkins cagers battled the Comets on even terms in the second half but couldn't climb out of the hole.

Kim Peterson led the balanced Trenary attack with 21 points. Also reaching double digits for the Comets were Ron Begovac with 20, Jack Mikulich with 15 and John Trotter with 14. Randy Stine chipped in with six points and Tim Harris and Jim Cayer added two each.

Art Vandamme was the big gun for Perkins with 20 points. Junior Bill Nelson came through with 15 and sophomore Paul McNutt 12.

Trenary won the jayvee game, 57-42.

Box score:
Trenary FG FT PF TP

Art Vandamme was the big gun for Perkins with 20 points. Junior Bill Nelson came through with 15 and sophomore Paul McNutt 12.

Trenary won the jayvee game, 57-42.

There is no conference action on tap this weekend as all Great Northern teams are busy with non-league competition.

Pat Miller, Menominee's 6 foot 3 inch junior, retained his position as the league's No. 1 scorer with a 104 point total and a 26 point average. Paul Miller, Esky senior, is second in the list with 90 points and a 22.5 average.

The leading rebounder in the conference is Eskymo Dave Nyquist, 6 foot 5 inch senior, who has hauled down 56 missed shots. Miller of Menominee is second with 54 rebounds.

Dan Mylander, sophomore guard for Coach Harold Johnson's Eskymos, continues to lead in assists with 38 while Paul Miller is runnerup with 20.

Bob Myrvall of the Eskymos is the top marksman in the conference, hitting on 26 of 33 field goals for 78 per cent. Bill Lawrence of Kingsford is perfect from the free throw line with eight for eight.

their 12th victory in 13 games. Bob Lewis led North Carolina with 25 points, and Rusty Clark and Larry Miller chipped in with 20 and 18, respectively. Dick Braucher's 24 led State.

A brief fight broke out just after the final buzzer at Chapel Hill when fan exchanged blows with State's Robert McLean. Order was restored quickly.

In the game at Carbondale, Southern Illinois built up a 27-16 lead in the first half only to see Louisville cut the margin to 20-26 at intermission. With 4:35 left in the game, Southern Illinois led 46-44, then after the two teams exchanged baskets, Frazier wrapped it up with his free throws.

Sophomore Dick Garrett scored 18 points and Frazier 16 for Southern Illinois. Wesley Unsel led Louisville, now 13-1, with 23, and Butch Beard added 17.

ESCANABA'S Con Yagodzinski, senior co-captain at Northern Michigan University, goes high for a rebound against Central Michigan at Finch Fieldhouse in Mt. Pleasant last Monday. Despite a 40-minute performance by Yagodzinski and three teammates, Northern dropped a 69-64 decision. The former Holy Name all-star is second in scoring at NMU this season with a 12.8 average in seven games, and is tied for 6th in NMU's all-time scoring list with 600 career points. (Photo courtesy Central Michigan Univ.)

Running things on the field will be quarterbacks Lenny Dawson of the Chiefs, left, and Bart Starr, right, of the Packers. (AP Wirephotos)

Tom Brown Would Like To Forget Interception

SANTA BARBARA, Calif. (AP) — Tom Brown was the great unknown in Green Bay's defensive backfield until he intercepted that pass by Don Meredith in Dallas on New Year's Day. When he picked off that toss with 26 seconds to go he became a celebrity.

Brown, the left safety in the Packer's solid line of defense, would just as soon forget the interception that saved the day for the Packers in their National Football League title game with the Cowboys.

"The interception wouldn't have meant a thing if I hadn't made two mistakes earlier," said the former Maryland star. "I fell down on the long touchdown pass to Frank Clarke and then grabbed Clarke in the end zone for the interference call that gave them a chance. I had a lot to make up for."

In case you have forgotten, the TD pass to Clarke closed the gap to 34-27 and the interference call gave Dallas a first down on the two with 1:52 to go.

Until the interception, Brown had been known primarily as the fellow who received a five figure bonus to play pro baseball with the Washington Senators and then chucked a baseball career after 1½ years to play pro football with the Packers.

The Packers tried Brown as a flanker on offense. He had played with Gary Collins of the Cleveland Browns at Maryland. But he dropped passes and floundered, so the brass moved

Tommy to defense. It was when the Packers needed a strong safety, a husky defender able to wrestle with the sturdy tight ends, that Brown moved to the position he now holds.

Brown's main consideration in Sunday's Super Bowl game for the big money will be Kansas City's tight end, Fred Arbanas. The American Football League

champs like to throw to the 6 foot-3, 240-pound Arbanas in a pinch.

"Arbanas reminds me of Mike Ditka of the Chicago Bears in the films we have seen," said Brown. "He is just as big as Ditka and blocks as well. In fact, they have excellent receivers as good as many National Football League teams and better than some."

Green Bay's cornerbacks are Herb Adderley and Bob Jeter, Oakland's Kent McCloughan and Dave Grayson. The Packer safeties are Willie Wood and Tom Brown, the Raiders' Rodger Bird and Warren Powers.

Having completed his breaking down of the Green Bay defense into the three components, Dawson then put it back together again and said:

"There's no doubt they're going to present a problem. They pressure you extremely well, and like Boston they have a lot of second effort. If you knock them down, you've got to lay on them—or they'll get back into the play."

"But," Dawson added, "that doesn't mean they present a problem we can't overcome. We have the tools. The reason why we have been successful is that we haven't had to rely on one guy. If they double on Otis Taylor, we'll go somewhere else. If they stop Mike Garrett, we'll go to Curt McClinton, or Chris Burford or Fred Arbanas."

"If they go somewhere to stop something—they've got to be vulnerable somewhere else."

"That's my job — finding where."

Gaylord Perry Inks Contract

SAN FRANCISCO (AP) — Right-hander Gaylord Perry, a 21-8 performer with the San Francisco Giants in 1966 with his best season, has signed a 1967 contract at an estimated \$40,000.

Perry, the first pitcher to win 20 games last season, earned a raise of about \$10,000. The Giants boosted his pay last season when he posted his 20th victory Aug. 20.

Only three major league hurlers won more games in 1966 than Gaylord, lanky 28-year-old North Carolinian who winters at Williamston. They were Sandy Koufax with 27, and the Giants' Juan Marichal and the Minnesota Twins' Jim Kaat with 25 each.

Salukis Snatch Narrow Lead In Basketball Poll

By The Associated Press
The Super Bowl football game is the big event coming up on the nation's sports schedule to almost everyone except possibly the basketball-minded folks of Owensboro, Ky., and Carbondale, Ill.

That's because next Monday night in Owensboro, Southern Illinois of Carbondale and Kentucky Wesleyan, the No. 1 and No. 2 teams in The Associated Press' small-college basketball poll, meet for the first time this season.

Southern Illinois took over first place from the Panthers in the latest poll. The Salukis, though, lead by only two points.

In the balloting by a national panel of 19 sports writers and broadcasters, Southern Illinois collected 171 points and Kentucky Wesleyan 169 on a basis of 10 for a first-place vote, 9 for second, etc. The Salukis were named the top team on nine ballots and the Panthers on seven. Southern Illinois beat Indiana

State in its only game last week for a 6-2 mark while Kentucky Wesleyan, unbeaten in eight games, downed Evansville and Tennessee State.

There were no changes in the next three positions with Cheyenne State occupying third place followed by Akron and Grambling.

Pan American, which won of its games last week, advanced three places to sixth. Indiana State, San Diego State, Tennessee State and Lincoln of Jefferson City, Mo., complete the Top Ten in that order.

The Top Ten, with first-place votes in parentheses and total points:

1. Southern Ill. (9) 171
2. Ky. Wesleyan (7) 169
3. Cheyenne State (2) 125
4. Akron 104
5. Grambling 88
6. Pan American 48
7. Indiana State 46
8. San Diego State 45
9. Tenn. State 41
10. Lincoln (1) 39

Soil Conservation District Praised

The Schoolcraft Soil Conservation district held a dinner party in Doyle School Tuesday night to mark its first birthday and received special tributes from Russ Hill, secretary of the State Soil Conservation Committee and Del Meister, area conservationist on the "tremendous progress" made in one year.

"Your list of cooperators and practices make it look as though you have been going 10 years," said Hill, who was here a year or more ago when efforts were underway to form the district. It now has 57 operators, representing 10,993 acres. One hundred four land owners were assisted in the past 14 months.

The Schoolcraft district is the only one in the state which had unanimous approval, Meister noted. He cited population increases as a factor in the need for wise use of land.

Silt Problem

The district has used all the help it could get and has made "terrific strides," Meister observed.

Briefly Told

State Police ticketed Edward I. Davis, Seney, defective brakes.

Public Safety officers ticketed Charles L. Vertz, Colons, reckless driving.

Fine of \$25 and costs of \$3.70 and a 5 day jail sentence were levied in Justice Court to John P. Talkowski, 23, of Vestaburg, who pleaded guilty to a charge of assault and battery. The offense occurred July 3 against Louis Berry, according to the complaint.

Break-in of cabins on Big Murphy Lake are being investigated by State Police. Cabins of Harold Underwood of Plymouth and Norman Underwood of Pontiac were entered, and cabinets ransacked. Owners have been contacted to determine what has been taken.

Word has been received that Mrs. Lulu Quirk, 79, of Romulus died suddenly at the home of her step-daughter, Mrs. Frank Kovachick, 13548 Aston Drive, Romulus. She was born Dec. 15, 1886 and had spent most of her life in Bellville. She lived here five years ago. In addition to her step-daughter, two sisters, who live in Winter Garden, Fla., survive. Services were held Dec. 10 in Bellville and interment was in Riverside Cemetery there.

Jurors On Call To April Term

Jurors for the January term of Circuit Court are on call until the April term but will not need to report Wednesday, Jan. 18 as the Moses trial has been re-scheduled to the April term of court.

Divorces were granted this week by Judge George S. Baldwin to Doris from Charles Prater, Wilma from Antone Weber and Doris from Robert L. Williams.

Jury Case Is Continued

The jury trial of Arnold Moses in Circuit Court on a charge of unlawful driving away an auto has been continued until the April term. A jury trial had been scheduled to start next Wednesday. The court has granted Moses time as he has offered to take a lie detector test and seeks to find the man he said gave him permission to use the car.

Boys and girls with band equipment and uniforms from Lancers are asked to bring the articles to the city hall side door Saturday at 10 a.m., for inventory purposes. Those who have the blue forms, Music Enrichment are asked to bring them. Any boy or girl who did not receive a form and wishes to join the Corps should contact Richard Bonifas or William Cowman.

Merri-Makers Square Dance Club meets at 8 p.m., Saturday in Lincoln School gym. Members are to bring sandwiches or cookies. All interested persons welcome.

Schoolcraft Memorial Hospital Auxiliary Dinner, 6:30, Jan. 23 in St. Francis parish center, tickets \$1.75.

Doyle-Mueller PTA meets 7:30 p.m., Thursday in Mueller School. Mrs. Harry Anderson and Mueller teachers are hostesses.

St. Jude Rummage Sale Thursday and Friday in the Garage of Mrs. W. A. Norton.

THE LITTLE WOMAN

Card of Thanks

Thelander

Our sincere appreciation is extended to all who aided us during our bereavement, the death of Peter Thelander. We especially thank the Rev. Ingmar Levin, those who sent flowers and other offerings, Messier-Broulliere Funeral Home. The acts of kindness will always be remembered.

Mrs. Dorothy Thelander and family

Ice Fishing Care Urged

Ice on small pothole lakes ranges from 3 to 6 inches and with insulation of snow and slush may have danger spots, the Conservation department reports. Warm weather followed by severe cold would improve safety. There is poor ice on the Upper St. Mary's and in the Munuscong Bay area. There is ample ice on the Tahquamenon Bay inside the bar.

Good whitefish catches have been made on the Upper St. Mary's. Commercial fishermen are taking some whitefish from the Tahquamenon Bay area.

Numerous small cisco are being taken on Whitefish lake with small minnows and wigglers; good rock bass catches are being made toward evening on Hulbert Lake.

Northern pike spearing has been generally slow on Round, Mud and Big Manistique Lakes. A 15½ pound pike was speared by Mike Brown of McMillan on Round Lake. There is a village of 47 shanties on Millecoquina lake, where pike spearing is reported fair.

A few pike are being taken on Indian, Snyder and Gulliver lakes in Schoolcraft county. A few muskies are reported speared and taken on tip-ups on Mud lake in Luce county.

Fair takes of walleye are reported on Big Manistique Lake and Indian Lake.

Perch fishing is relatively slow. Some are reported taken from Hulbert, Deadman's, Manistique and Indian Lakes.

Obituary

MRS. WM. CHRISTENSEN
Complete funeral services were held at 2 p.m. Wednesday in Messier-Broulliere Funeral Home for Mrs. William (Anna Mae) Christensen, 46, who died Monday. The Rev. Ingmar Levin officiated. Mrs. Roy LaMarche was organist. Burial will be in spring in Lakeview Cemetery.

HENRY JULIUS HOIG

Henry Julius Hoig, 68, died Monday morning at his home in McMillan. He was born June 20, 1898 in Burt Lake, Mich. and had lived in the McMillan area for the past 60 years.

He is survived by his wife, Frances, sons, Donald of Lafayette, Ind., William of Curtis; daughters, Mrs. John (Wanda) Weigan of Goodells, Mrs. Kenneth (Sherry) Deibel of Port Huron, Mrs. Donald (Roberta) Crider of Lafayette, Ind., Mrs. Robert (Joanne) Couturier of McMillan; a half-brother, Robert Hoig and his step-mother, Mrs. Bertha Allen of Curtis and 31 grandchildren.

Funeral services will be held on Wednesday at 1 p.m. at the Beaulieu Funeral Home with the Mgr. Wilbur Gibbs officiating.

Hospital

Admitted to Schoolcraft Memorial Hospital were Dale Dufour, Edith Dovey, Harry Frans, Ingeborg Anderson, Ida Sandberg, Earl Bly, Ruth Letson, Alice Knuth, John McLeod, Monica Parker, Leoline Minor, Martin Solar and Raymond Heminger.

Discharged were Jack Raski, Ruth Letson, Richard Freeland and Kenneth Lee.

Births

Mr. and Mrs. Lawrence Knuth Jr., of 136 N. 2nd St., are the parents of a daughter born Jan. 9 in Schoolcraft Memorial Hospital. The baby weighed 6 pounds 9 ounces. Mrs. Knuth is the former Alice Miller.

Appointment

John J. Weber has been appointed to the Soldiers and Sailors Relief Commission for a term extending to Dec. 31, 1967. He replaces Archie Carpenter.

Church Events

Zion Lutheran
The annual meeting of Bethany Lutheran Church in Isabella will be Jan. 15 at 8 p.m.

Some Foods Are Lower In Price

By SALLY RYAN
NEW YORK (AP)—Wholesale food prices have been dropping ever since Thanksgiving, and consumers may reap some of the harvest in the supermarkets this month.

Beef and pork are more plentiful than a year ago and egg prices have dropped 1 to 6 cents a dozen this week. And have you taken a look at oranges and grapefruit?

The lower prices aren't universal, however. And the higher prices paid for fresh meat at the wholesale centers this week may be passed on to consumers this weekend.

Lamb prices generally are higher this week, although they usually are lowest from January through April.

Whatever your family wants for dinner you may find it on special at some store in your area. It will pay to watch store specials.

Egg prices are down nearly everywhere.

The U.S. Department of Agriculture forecast the 1966-1967 orange crop at a record 181,300,000 boxes, up 28 per cent from last year.

There also are bountiful crops of grapefruits, tangerines, tangelos, lemons and limes, leading to lower prices.

Many stores are offering specials on frozen orange juice concentrate.

Carrots and mixed greens are beginning to move out of Texas, and carrots may offer a good buy in many areas.

A dense cloud blanket protected the Rio Grande Valley's rich citrus fruit crop from a snow storm this week. But a snow in Mexico raised fears that the valuable coffee crop might be destroyed.

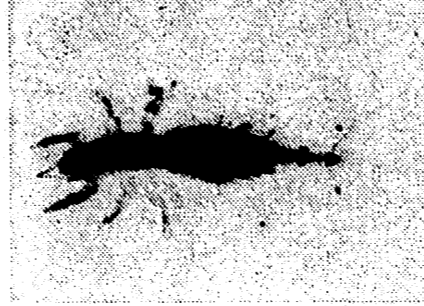

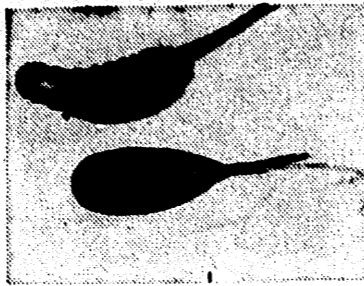

Polish Legion

GRAND RAPIDS (AP)—The Polish Legion of American Veterans will hold its 1967 convention in Grand Rapids Sept. 14.

Winter Fish-Getters

With the ice fishing season underway, followers of this winter sport are talking about "mousies," "corn borers," "crane fly larvae," and other strange creatures. Here are some of those popular conservation pieces for baiting fish in the winter. "Mousies," upper left, are one of the most available baits while minnows, top center, remain as standby fish-getters. Mayfly wigglers, bottom center, are an excellent winter bait. They are found in quiet lagoon areas along streams, and can be dug by fishermen for winter use. Wax worms, lower right, are also very popular as bait. As a sidelight to this menu of winter fish baits Conservation Department cartoonist Oz Warbach has sketched two important reminders to ice fishermen: 1) Don't forget to properly print your name and address on your fish shanty; and 2) Keep litter off the ice. —Mich. Dept. of Conservation

Tire Stud Law Applies To Use

LANSING (AP)—A studded tire—illegal in Michigan—was rolled out in front of State Police Director Col. Fredrick Davids.

Davids, however, was unable to make an arrest at the State Safety Commission meeting.

The law provides that although it is illegal to use the tires on a car, it is not illegal to sell them.

Tire companies ship the tires into Michigan without the studs. They are placed in the tires by the dealers. The small steel studs, less than one half inch long, protrude about 1-16th of an inch from the tire.

It is claimed the studs enable faster and safer starting and stopping on ice and snow.

A bill to legalize studded tires was killed in the Legislature last year when the State Highway Department said it wanted to wait for the outcome of a study to determine whether or not the studs damage highways.

Joseph Brogan, manager of the Lansing Tire Co., rolled in the exhibit. He said tire company tests showed the studded tires resulted in 155 per cent better starting on ice and snow, 50 per cent better stopping and 33 per cent better steering.

Brogan said he had sold about 200 sets of the tires this year, but had warned all his customers they were illegal.

"They really do work. They do the job they're supposed to do," Brogan said.

"I called State Police and they told me they weren't enforcing the law," he added.

"That's where you're wrong," Davids interjected. "We have enforced the law when the tires have been found. We just haven't started any campaign against them."

Davids added that when a 1966 legislative act enabling State Police to set up special lanes to check motor vehicles becomes effective in March, many more motorists probably will be cited for the violation.

Use of the studded tires, Dav-

ids said, is a misdemeanor carrying a fine of up to \$100 or up to 90 days in jail.

Inspections have shown numerous cases of some of the metal studs being missing from tires.

"How would you like to be driving along and have one go through your windshield?" he asked.

Max Hoffman, State Highway Department safety expert, said there was some evidence that the studs have a polishing effect on highways to make them slippery and dangerous for drivers.

Dean At Douglass

NEW BRUNSWICK, N.J. (AP)—Dr. Margery Somers Foster, dean of Hollins College in Virginia, has been named dean of Douglass College, the women's division of Rutgers—the state university of New Jersey.

She succeeds Dr. Ruth M. Adams, who recently became president of Wellesley College.

Traffic Seminars

LANSING (AP)—The State Highway Commission will hold traffic engineering seminars Jan. 18-19 at Ishpeming and Feb. 15-16 at Lansing. The Michigan Municipal League and the County Road Association will be co-sponsors.

Extension Offers Fertilizer Hints

A new Michigan Extension Service bulletin (E-550) giving fertilizer recommendations for Michigan field crops and vegetables is available at the Delta County Extension Office. Over 50 per cent of the acreage on U.P. farms never sees fertilizer in any given year.

'Bud' Bryant Makes History

DE QUINCY, La. (AP)—Marvin Wayne (Bud) Bryant makes medical history every day he lives.

In his 21 years of life, he has received more than 700 pints of blood. He needs it to live.

Bud suffers from Coley's anemia — a disease in which the red blood cell production is severely curtailed. Victims rarely reach puberty. A brother and a sister of Bud's died of the disease at the age of 4 months.

He has one brother and three sisters who do not have the illness.

The disease was discovered when Bud was only 7 months old.

"Since that time my doctor has provided me with every hospital and medical need," Bud said.

Bud works at the hospital laboratory and assists in office routine.

Bud receives blood from inmates at the Louisiana Correctional and Industrial School, a penal institution near De Quincy.

They have more or less adopted Bud, and to date he has received 370 pints of blood from them.

Prior to the opening of this school, Bud got blood from donors who were found with the aid of civic organizations in the area.

His father donated the first 125 pints of blood but his health began to fail and he was forced to stop.

Bud goes to night school to continue his studies. His formal education ended in the 9th grade when he figured it was useless.

He hopes eventually to become a lab technician.

He has been examined by specialists from around the nation. Bud remembers once that 18 doctors examined him in a day. He prefers to stick with his own doctor.

Bud accepts it all with a philosophical outlook.

"It could be worse," he says.

How To Figure Proposed Surtax

WASHINGTON (AP)—It's easy to calculate how President Johnson's proposed 6 per cent surtax would affect you: Figure your taxes, then add 6 per cent.

If your tax as now computed totals \$500, the surtax would add \$30 for a full year. If your tax is \$1,000, you would add \$60; if \$2,000, the surtax would be \$120 a year.

For corporations the rule would be the same.

There would be exemptions for lower-income families. A family of four with an income below \$5,000 a year would be exempt, as would a single person with an income below \$1,900 a year.

Johnson indicated in his State of the Union message that the surtax, if approved by Congress, would take effect July 1, when fiscal 1968 begins.

Thus it would be in force for only the last six months of calendar 1967. The effect over the full year would be to increase your tax liability, as shown in your tax return a year from now, by 3 per cent.

The women wanted to repeal the paramour law altogether, but I want to leave a man the right to protect his home," Bass said.

"This just gives them equal shooting rights, that's all."

"The women wanted to repeal the paramour law altogether, but I want to leave a man the right to protect his home," Bass said.
